Please visit www.altousa.com for more details on these new clutches and other items they offer.

NEW Loganbuilt 47/48RE Flexplate Shield

Loganbuilt has developed and manufactured the first ever SFI certified 30.1 flexplate shield for diesel racing transmissions.

SFI flexplate shields are a safety feature required by the NHRA for any vehicles running quicker than 6.40 ET in the eighth mile, or 10.00 ET in the quarter mile.

Flexplate shield requirements have been in place for years but they have been ignored in 47/48RE transmissions. Virtually every Cummins-powered truck on the dragstrip is backed by one of these 47/48RE transmissions and there are quite a bit of competitors surpassing that 6.40/10.00 range.

Available at Loganbuilt and Goerend Transmission.

Jatco/Nissan JF010E Oversized Pump Flow Control Valve from Sonnax

Featuring advanced materials to protect against premature wear, Sonnax oversized pump flow control valve (#113741-26) allows Jatco/Nissan JF010E (RE0F09A/RE0F09B) pump bodies to be refurbished and hydraulic control to be restored. This valve is designed to work in the OE version with the longer valve and shorter sleeve. To replace a worn OE short valve and long sleeve design, use Sonnax valve #113741-07.

Visit www.sonnax.com for more products and information.

Transtar Holding Company Announces Sale to Blue Point Capital Partners

New ownership positions Transtar to accelerate growth, build on industry leadership

After returning to the business in 2017, Transtar Founder and Executive Chairman Monte Ahuja, and Chief Executive Officer Neil Sethi, worked alongside the Company's executive leadership team to successfully stabilize operations, make significant foundational changes, and implement overall process improvements. Today, Transtar is well-positioned for growth through traditional channels,

investments in digital solutions such as transend™ -- the Company's proprietary ecommerce platform -- and acquiring respected transmission industry distributors in key markets.

Transtar's current management team will continue to lead the organization seamlessly and execute their growth strategies. CEO Sethi and Joe Levanduski, CFO and COO, will continue in their current roles and will continue to own equity stakes in the business. Chip Chaikin, partner at Blue Point Capital, will serve as Chairman of Transtar's Board of Directors. Current Board Chairman, Ahuja, will remain on the Board as a director, maintaining an ownership stake in the Company.

Details of the transaction will not be disclosed.

ETE Reman Earns The 2021 Top Workplaces USA Award

ETE REMAN has announced it has earned the 2021 Top Workplaces USA award, issued by Energage, a purpose-driven organization that develops solutions to build and brand Top Workplaces. This is the inaugural year for Top Workplaces USA, built on the program's 14-year history surveying more than 20 million employees across 54 markets for the regional Top Workplaces awards.

"This recognition is simply the icing on the cake – a celebration, if you will – for an accomplishment we already earned. The biggest win is the one in our employees' hearts and minds. Being a top workplace isn't something that's given to us, it's something we actively pursue daily with the help of every single person here," says Noah Rickun, President of Sales and Distribution.

ETE REMAN couldn't be prouder to be in the company of Top Workplace recipients, and it's just the beginning of us following our core values to WIN together and CELEBRATE success.

Lubegard Announces Brand New OEM ATF & Conversion Chart

International Lubricants, Inc, makers of LUBEGARD® automotive branded lubricants, announced the introduction and the immediate availability of its 2021 13th Edition OEM ATF & Conversion Chart.

Spanning from model year 1995 to 2020, this chart helps identify the OEM fill fluid used when the vehicle first left the factory. No more guessing what to use when working on your transmission!

It includes their staple products such as their ATF protectants and conversion products, their COMPLETE™ whole fluid line, featuring their automatic transmission fluid, continuously variable transmission fluid, and dual clutch transmission fluid, as well as guidance on when it is compatible to add their Instant Shudder Fixx product.

For more information contact: Ili, 309 S. Cloverdale St, #D31, Seattle, WA 98108. Call Toll Free (800) 333-5823 (LUBE) or visit their website at www.lubegard.com.

On The Road To A Billion — empiriKal partners, llc ©

Eric Harding, CEO of empiriKal partners, llc ©, has announced, "The firm is on the road to a billion in assets under management. We achieved great results for our investors in 2020, and we added a Chief Growth Officer, Mark Post, (MBA), and Chief Compliance Officer, Travis Sally, (MIM). Also, in 2020, we've increased our number of advisors from 1 to 10 while doubling the total assets under management. The goal for 2021 is to scale up to 25 advisors."

Harding had a vision to start his own Registered Investment Advisory firm in 2011 while still working at a

large investment brokerage. Untethered knowledge based on observation and experience was the tenet he foresaw driving his vision. Taking a leap of faith, in 2016, Harding seized the moment to make his dream a reality. As a one-man shop, he succeeded in establishing the firm and positioned it for growth in 2020.

What makes empiriKal partners stand out? The word "partners" in firm's name means something. Each advisor is a partner while growing his or her own business under the RIA partnership.

The firm's message to individual investors is simple. Clients deserve free and fair access to financial advice. While other firms are blocking opportunities for individual traders, empiriKal partners offers robust financial planning solutions in addition to unique investment opportunities such as Private REITs, Pre-IPOs, and Crypto Currency investing.

Visit www.empiriKalpartners.com for more information.

Transtar Industries Innovative Ecommerce Platform, Transend™, Now Offers Comprehensive Automotive Driveline Products From Premier Brands

Transtar Industries, the leading distributor of automotive transmission and driveline aftermarket solutions, has partnered with RANDYS Worldwide, a premier supplier of differential gears, axles, and other driveline products. This agreement brings RANDYS extensive selection of Yukon Gear & Axle and USA Standard Gear products to transend, Transtar's proprietary parts lookup and ordering software. transend catalogs and uniquely matches fitment for thousands of high-quality parts covering a comprehensive range of vehicle applications. By partnering with RANDYS, Transtar is building a unique marketplace that boasts the industry's most comprehensive selection of transmission and driveline parts and products.

Registration for a transend account is free. Visit www.transend.us to begin browsing parts today.
