Rockland Standard Gear Manufactures 6-Speed Manual Transmission for Trucks and Cars

Rockland Standard Gear manufactures the Tranzilla 6 speed manual transmission for Trucks and cars. This is a performance shifting close ratio manual trans for GM, Ford, Dodge, Jeep, that gets rid of the factory automatic for drivers that want more control over their vehicles or gets rid of older 3, 4, and 5 speed transmissions with double overdrive availability for better fuel mileage. Available in 2 and 4 wheel drive configuration that will have your truck shifting like a muscle car.

Call George at 800-227-1523 extension 299 or go to info@rsgear.com for more information.

New HYDRAMAX Under-Dash Hydraulic Clutch System for Chevrolet/GM C10 Trucks

American Powertrain now introduces to its growing line of HYDRAMAX true bolt-in, under-dash Hydraulic Clutch Systems, a kit designed for 1967-1972 Chevy C10 trucks. The new system features an integrated under-dash hydraulic master cylinder and a bolt-in clutch pedal.

The included clutch pedal allows for an easy conversion to hydraulic, or an automatic car to manual. The kit is easy to use and requires no complicated adjustments or junkyard searches for hard-to-find C10 clutch pedals — everything can be bolted-in, then simply bleed the slave cylinder.

The new HYDRAMAX kit includes a master cylinder, clutch pedal, lines and a billet HYDRAMAX hydraulic slave cylinder bearing. The conical slave cylinder is pre-bled, dual sealed and comes with shims to adjust the distance to the clutch fingers for any type of clutch set-up. Included is a billet reservoir to finish out the install. These kits work with any TREMEC transmission including the T5, TKO/TKX and T-56 Magnum 6-speed. .

For more information about the new HYDRAMAX Under Dash Hydraulic Clutch System, visit americanpowertrain.com.

Extra Capacity Transmission Oil Pan for New Ford Trucks and SUVs

PML now manufacturers and sells a heavy duty pan for the Ford 10-speed 10R80 transmissions on new F-150, Raptor, Ranger, and SUVs.

PML's 10R80 pan holds more fluid than the stock pan and features cooling fins on the bottom to aid in heat reduction. A drain plug allow for easy fluid changes without dropping the pan.

The OEM pan is plastic. PML's pan is sand cast aluminum with thick walls for strength.

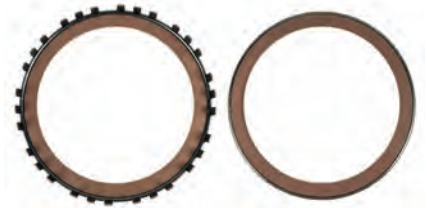

PML 10R80 Transmission Pan features:

- Heavy duty, thick-walled sand cast aluminum construction

- Drain hole and magnetic drain plug provided
- Holds 1.9 quarts extra capacity over stock OEM pan
- Finned to increase surface area for heat dissipation
- Fits without modification to tubes, frame, or exhaust
- Available in natural cast finish or black powder coat finish
- Made in USA

For more information contact David Tolin at 310-671-4345 or email at yourcovers@pml.com, or visit www.YourCovers.com.

ALTO Announces NEW GM 8L90E Torque Converter Friction Clutch

Alto Products Corp has announced a new Torque Converter Friction Clutch for the GM 8L90E transmission. It features G3™ Hi-Performance friction material on both sides and is the x30 bent tooth design.

New Upgraded Bushing Kits from Sonnax

Avoid bushing failure, harsh shifts, burnt clutches and gear ratio or solenoid codes in GM transmissions

with Sonnax bushing kits. These kits limit bushing wear and can restore worry-free operation with upgraded material composition that outperforms OE bushings and superior wear characteristics that eliminate premature deterioration.

- GM 6L45/50: #104030-01K
- GM 6L80/90: #104030A-01K

Visit www.sonnax.com for more information on these bushing kits and other Sonnax products.

Automotive Tech Company Wants Roadside Safety For Everyone

TOPDON USA has many lofty goals for the future, not only does the company aim to become a staple of the diagnostics industry, they also want to make America's highways safer with their Volcano 1500. Any 6.5L diesel engine or 8L gasoline engine can be jumpstarted with this product, and without the need of a second car.

The Volcano 1500 is a 12V Battery Jumpstarting tool capable of 25 jumps on a single charge. The product features a built-in LED flashlight with three light settings, and multiple charging ports to charge electronics in a pinch. Hi-tech safety features prevent reverse polarities and sparks in case the clamps touch each other.

"The Volcano 1500 should be in everyone's car. Every TOPDON product gives our customers something unique, and the V1500 gives you peace-of-mind. It's easy to use, safe, and effective, it's meant for everyone because we know everyone needs that added safety on the road." says Chad Schnitz, TOPDON USA Vice President.

Margaret Palango Appointed to CEO at Autoshop Solutions!

Autoshop Solutions, a premier automotive services based digital marketing agency, today announced the appointment of Margaret Palango as the new Chief Executive Officer. As a 15 year veteran of Autoshop Solutions, Margaret will continue as a dynamic leader applying best practices across all company segments and exploring strategic opportunities to support the growth of Autoshop Solutions.

"Every company needs a leader like Margaret, who is a hard working, dedicated, and caring leader. During the past 15 years she has helped Autoshop Solutions stay focused on customer needs and to grow the most successful automotive agency in the industry." said Danny Sanchez, Founder and outgoing CEO of Autoshop Solutions. "I have been privileged to see Margaret grow as a team member, as a leader, and as a friend that has been critical to our success at Autoshop Solutions and I am honored to be promoting her to this leadership position!"

Margaret joined Autoshop Solutions in 2006, when she began establishing its brand position for quality website design and progressive internet marketing. During the past 15 years, she has overseen and been a key catalyst in Autoshop Solutions' growth into the award-winning website design and internet marketing agency it is today. Her responsibilities with Autoshop Solutions have ranged from direct client management to managing the entire website production process to now running the company! Margaret enjoys taking every opportunity to share her marketing expertise with clients, employees, and fellow automotive industry professionals and partners in the Automotive Aftermarket. She has also been an active member of Women in Auto Care since 2016.

"Margaret has been an excellent mentor and key component in my growth and success at Autoshop Solutions," said Tony Mercury, Vice President of Revenue at Autoshop Solutions. "I am excited to see not only her growth in this new role but also how much we will grow as a team with her leadership!"

When she is not working, Margaret enjoys spending time with her husband and family. They can often be found taking one of her Porsches on a spirited drive through North Carolina or to a PCA Event on the weekend. Margaret is an active member of the North Carolina Hurricane Region Porsche Club.

Stay connected with Autoshop Solutions on Facebook, Instagram, and Twitter, or contact press@autoshopsolutions.com for more information.
