## Company Profile

Our Blumenthal motto is Quality, Service and Price. We remanufacture and distribute engines, transmissions, transfer cases, differentials, clutches, PTO's and have all the power train components for you to repair or replace anything in your power train in ALL VEHICLES. From little cars to big rigs, from antiques to brand new models, from imported to domestic, our expertise is well known in the industry but what really sets us apart is our unparalleled reputation for customer satisfaction. Call or email us and we'll be happy to serve you.

## Manual Transmissions

### *Light, Medium & Heavy Duty Hand*

Crafting the best quality transmissions available. Every unit is dyno tested and quality is in the parts! We have one of the best names in the industry because of our 63 years of satisfied garages & fleets and our return over-the-counter retail customers! No one can beat our quality!

## Clutches

### *All OEM QS9000 Quality*

Why We Stock over 800 different clutches and all components. High performance, agricultural, and heavy duty clutches are in stock. Standard flywheels & dual mass fly's are also in stock. 47 Years of clutch experience insures you get the right clutch every time. Eaton – Fuller – Spicer & Auburn!.

## Drivelines & Components

### *Drivelines, U-joints, Axles, and Yokes*

We use state of the art technology for balancing and diagnostics.

We distribute and use only the best OEM components such as, Meritor/ Rockwell and Spicer. A complete Ag line & all metric sizes are in stock. We have high performance aluminum racing shafts!

## Differentials

### *Light, Medium & Heavy Duty*

Why All applications for all trucks, cars, agricultural vehicles and equipment. Conversion to posi-traction, ring gears and pinions are in stock. Differential kits, 3rd members, pumpkin housings and axles are here!

## Automatic Transmissions

### *All Applications including High Performance and Heavy Duty*

A computerized dyno tester makes all the difference!! All hand crafted and dyno tested for quality assurance & QS9000 compliance. Let us custom build your unit. We can transform your transmission for heavy duty or high performance use!

## Torque Converters

### *Suitable for High Performance Applications*

Why We Stock Our 24 step remanufacturing includes furnace brazing. That relates to heavy duty service & longer life! We custom build units for variable stall and pitch. Get the best and call us! Every torque converter we produce is heavy duty.

## Engine Remanufacturing

### *New Engines & Remanufactured Engines*

The highest quality remanufactured diesel & gas engines for ALL trucks. Plus, light duty engines for cars, vans, SUVs and caterpillar, detroit diesel, industrial & oilfield applications. 7.3L Ford natural & power stroke, cummings turbo 12 & 24 valve GM 6.5L diesel, & ALL truck & SUV gas engines for GM, Ford, & Chrysler. All 4 & 6 cylinder V8s & V10s. Also, marine inboard motors. All simms tested & hot fired.

## COMPANY PROFILE

Chosen Payments is dedicated to making a difference in the payment processing industry by taking a partnership approach. We're not only a partner, but a business consultant for merchants nationwide that accept electronic payments.

We are experts in credit card processing, check processing, gift/loyalty, ATM, merchant cash advance, mobile applications and other payment processing and financial services.

Our focus is being your "Partner in Success." This means that we treat each and every relationship like a true partnership, using our decades of industry experience to facilitate growth for our merchants. Naturally, we look for ways to increase revenue by cutting expenses, using value added services, and by driving more success to our partners. We take pride in what we do and our focus is improved productivity, seamless transactions, and increased value.

Chosen Payments has been recognized as an industry leader. We have leveraged our reputation, values, and passion into creating a company that stands by what we say. We have offices throughout the nation and are fluent in many languages.

## WHAT'S NEW

**Free Credit Card Processing!** Chosen Payments now offers FREE credit card processing to automotive professionals! Using updated equipment technology, your pricing schedule is automatically adjusted to include the cost of accepting a credit card for payment. In other words, the associated fees are passed on to your customer in the final price of an item sold. Customers who elect to pay by cash or check receive a discount for paying with cash. This is an excellent way for automotive shops to immediately increase profits by passing the cost of a credit card transaction to the consumer.

## PRODUCTS

**Credit Card Processing** – Accept credit cards anywhere.

**ACH/Check Processing** – Deposit checks from your desk.

**Recurring Payment Processing** – Monthly dues/payments automatically processed.

**Merchant Cash Advance Loans** – Faster than a bank with money in your hands tomorrow.

**Loyalty/Gift Cards** – Grow your business with our innovative loyalty programs.

**Mobile Applications** – Accept credit cards from smartphones or tablets from anywhere.

**Integrated Software Solutions** – We can integrate with your existing software.

**eCommerce Integration** – Need to accept payments on your website? We can set it up!

**Online Reporting** – Know when you have received your funds and much more.

**Cash Discounting Program** – Encourage cash sales with technology driven solutions.

**Invoice Payments** – Allow customers to pay an electronic invoice with a single mouse click. Get paid faster!

## CUSTOMER SUPPORT

Chosen Payments offers 24/7 customer service including holidays. We understand the importance of being able to transact business at any time, day or night.

## ABOUT ATRA & CHOSEN PAYMENTS

ATRA has partnered with Chosen Payments for credit card processing for its members. We offer ATRA members exclusive low rates and unmatched customer service as part of ATRA's partnership program offering discounted products, services, and business opportunities for members. Selecting ATRA's preferred vendor allows members to enjoy the same volume savings that chain retailers enjoy by having multiple locations. Members in good standing are eligible to receive a guarantee that if we can't save a member money, Chosen Payments will pay your annual ATRA dues.

For more information about the partnership, contact Branden Anderson by email: Branden.Anderson@chosenpayments.com or phone: 805-910-1445 Ext. 6612.

Flywheel Grinder

## The **ONLY** Clean Grinder In The Industry

This top of the line grinder features an optional full shroud complete with air mist collection and a coolant filtration system to keep your parts and work environment clean.

The wide array of standard and optional tooling, heavy duty construction, and minimal footprint make this machine the best value in the industry.

### **Ideal for use on:**

- Flywheels
  - Transmission components
  - Brake rotors
  - Air conditioning compressor components
- ... and other automotive applications*

Built in Winona, MN  
since 1975

## OE EXPERTISE FOR OE PERFORMANCE

### COMPANY PROFILE

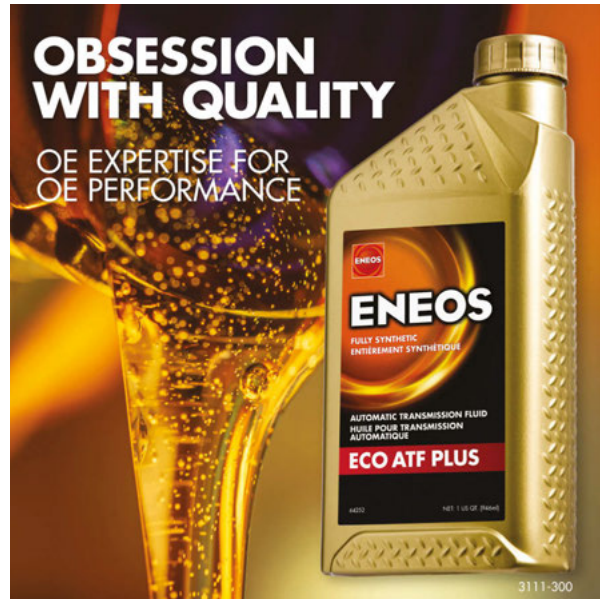

ENEOS is the largest oil company in Japan. For decades, ENEOS has worked with Japan's automakers to create advanced lubricants ideal for their production goals: increased fuel economy without sacrificing power or protection.

The results of ENEOS' efforts help ensure vehicles have the best possible start right out of the factory. And, ENEOS can provide these same, exacting standards to help ensure peak performance for the rest of each vehicle's life.

### RESEARCH AND DEVELOPMENT

Through joint research and development, ENEOS' in-house teams have helped achieve pioneering industry milestones, such as increasing VI to provide fuel economy at low temperatures and transmission protection at high temperatures, by championing high-quality, synthetic base oils combined with proprietary blends of premium additives.

Each product is carefully researched and created by in-house labs in Japan. ENEOS uses the premium raw materials while blending their products at their plant in Childersburg, Alabama, where it is packaged using the highest quality standards available alongside the same bulk lubricants sent to OEM factories.

2022

## PUTTING POWER TO THE GROUND FOR 75 YEARS

"My dad started this business back in 1947. He worked on any vehicle that would fit through the front door of our shop, and some in the driveway that couldn't. Back then, we did everything from overhauling a carburetor on an 8N Ford tractor to rebuilding an injection pump in a GM diesel. When my brother Bob and I bought the business from Dad in 1978, we started specializing in automatic transmissions, torque converters, and chassis dynamometer testing.

2022 marks the 75th year that we've been in the automotive industry, with a focus on diesel trucks and torque converters for the past 40. Here, we value quality over quantity, which is why we use multiple specialty tools and in-house equipment that allow us to manufacture and test our products well beyond what the competition can do. Because of our expertise in these areas, along with our top-of-the-line equipment and tools, we have become the top producer of quality torque converters and transmission components for Dodge, GM, and Ford trucks.

Our workmanship, attention to detail, extensive equipment knowledge and work ethic has assured our customers for 75 years that they're receiving the highest caliber of products and service there is."

- Dave Goerend -

### PRODUCTS

We take pride in all of the transmission parts we manufacture and make many of the parts we sell on our nine in-house Mazak CNC machines. The several patents we hold are designed to increase performance while also correcting problems that occur with OEM and failed aftermarket parts. Our award winning PTO covers and transmission pans are prime examples of how our parts go beyond just their intended purpose while also ensuring our customers get the most out of their vehicle, whether they use it as a daily driver, towing rig or drag racing champion.

### RESEARCH & DEVELOPEMENT

We have testing capabilities to analyze many aspects of our torque converters and parts, including both a chassis dynamometer and custom built transmission dynamometer. We use our advanced testing power to analyze critical data such as converter K-factor and torque ratio. This advanced ability to test our converters combined with decades of transmission knowledge is what makes us the highest standard in performance diesel torque converters.

Flo-Dynamics  
3300 Reedy Drive  
Elkhart, IN 46515  
(800) 303-5874  
[www.flodynamics.com](http://www.flodynamics.com)

## Company Profile

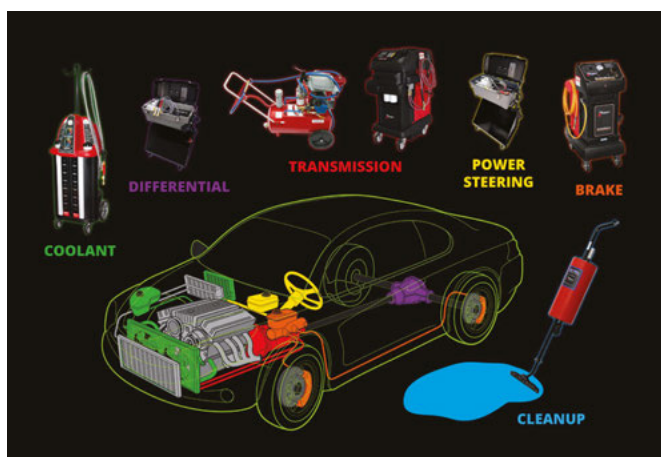

Flo-Dynamics, a division of Norco Industries was formed in 1992. We started out engineering transmission fluid exchangers for several of the OE's. Over the years, we expanded both the markets and product offering. In January of 2018, we acquired the well know and respected company, G-TEC, manufacturer of transmission flush machines. G-TEC has been providing quality equipment since 1991.

## The People

Frank Casale, VP  
Steve Anderson, Sales Manager  
Marty Gehrke, Customer Service Manager  
Scott Defebaugh, Tech/Engineer Manager

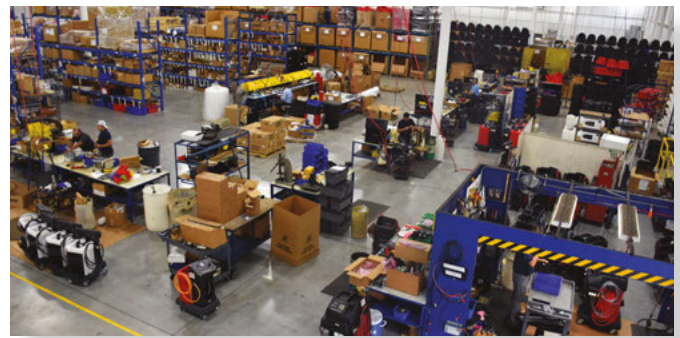

## What's New

We will be introducing a trans flush machine that can record stored service data. This printable data is required by some OE's and component suppliers for warranty compensation. In addition, this data can be shown to the customer insuring that the flush service brought their system back to OE specs. We will also be introducing our first line of smart machines. Transmission fluid exchangers that can be controlled, monitored and can even alert the technician when the flush is done all through their phone.

## Products

Flo-Dynamics is a manufacturer of Fluid maintenance service equipment. From fluid maintenance equipment for Transmission, Power Steering, Coolant, Brake, Differential, AC, and DEF. We also manufacturer Transmission flush machines (G-TEC) along with innovative equipment to clean up spills (Air/Vac).

## Research and Development

***Flo-Dynamics, a leader in the automotive industry.*** We pride ourselves for engineering and designing equipment from the ground up. We produce equipment that the techs ask for, not what someone thinks they need. This comes from spending time in the shops with technicians who use our equipment. Flo-Dynamics was the first to the market with transmission fluid exchangers. Flo-Dynamics produces the fastest transmission dipstick service machine in the industry. Units include patented features like power lost memory, pump/manifold design, electronic measuring systems, just to name a few. We were the first with coolant machine that combines both vac/fill and full flush service. First with smart transmission machine. Patented remote pendant for easier power steering service. Brake machine that can service gas, hybrids and electrical vehicles. More OE approvals than any other manufacture in our category of fluid service equipment. Leading the way for 26 years.

## Customer Support

We believe that support after the sale is just as important as before the sale. We have internal and local sales teams, along with internal tech departments and nationwide service center techs to provide support of our equipment. for more information, including operation videos, quick start guides, adapter charts, manuals, parts list, and more, visit our website at [www.flodynamics.com](http://www.flodynamics.com).

# H & A Transmissions, Inc.

Remanufactured Transmissions  
for Honda & Acura Automobiles

## An Unwavering Commitment to Quality!

### Company Profile

H & A Transmissions, Inc. is a leading provider of quality remanufactured transmissions. We deliver nationwide to Honda & Acura dealerships, extended warranty companies, independent transmission and automotive repair specialists.

At H & A Transmissions, Inc., we care about our customers. Our friendly, knowledgeable staff and tech support are here to assist you. We have hundreds of transmissions in stock and ready to ship from one of our 9 distribution locations.

Also, our subsidiary company, Gearspeed, offers a complete line of stock and hi-performance manual transmissions as well as a line of obsolete/vintage transmissions for those who still have their classic Honda or Acura on the road. And if you still prefer to build your own, Gearspeed offers an extensive line of manual, automatic and hi-performance parts to supply your transmission needs.

### 6 Speed Automatics Now Available!

### 9 Locations to Serve You

### Nationwide Warranties

Our Tier pricing allows you the flexibility to choose the level of coverage that best suits your overall needs.

Each Tier level option has coverage available for:

- 1 Year Unlimited Mileage
- 2 Year Unlimited Mileage
- 3 Year Unlimited Mileage

- Units built using OEM/OEM compatible Parts
- Price includes torque converter, inline filter and external ATF cooler (where applicable)
- Shipping and core return included
- Rental car and towing provisions included with parts & labor warranties
- R & R reimbursement is based on factory Honda/Acura book times

# Hydra-Test

the ultimate in valve body testing

## Company Profile:

Hydra-Test is global supplier of automotive solenoid, valve body, torque converter, and transmission testing and rebuilding equipment. Our home office is located in Kettering, United Kingdom. Due to our continued growth and market opportunities, we have additional locations with our Hydra-Torque division in Minsk, Belarus and our Hydra-Test USA division in Santa Ana CA, USA. As a company, we started out in the 1990's as an improvement to the current market options for valve body testing have grown our product line into a full suite of solenoid, valve body, transmission, and torque converter testing and remanufacturing equipment.

The result is a trusted line of equipment that is used worldwide by repair shops and remanufacturers to qualify the parts and units they are servicing and rebuilding, with a focus on efficiency, accuracy, and quality.

## Research & Development:

Hydra-Test leverages our close customer relationships to identify test solutions for late model units and provide solutions as they are entering the market. With offices on both sides of the Atlantic we are able to develop solutions for the common units weather the customer is in the USA, Europe, or Asia. Our team of designers and engineers have many years of experience in the industry and have a familiarity with transmissions and testing. With our continuous development, Hydra-Test has brought test solutions to the market for the latest 8, 9 and 10 speed transmissions, as well as a dependable line of torque converter remanufacturing equipment with the release of our third generation design.

## Products:

Our flagship machine is the HT VBT Deluxe valve body test machine. This machine is used worldwide to check, test, and qualify valve bodies. Our latest generation of solenoid test machines is the HT Sol 25. As we have grown, we have expanded into the torque converter market. With the release of the WS 3.2, Hydra-Test offers one of the most advanced torque converter welding stands on the market. To complete our product line, we now offer upgrades to existing transmission dynamometers as well as our own Hydra-Torque transmission dynamometer.

**Stellar**  
Automotive Group

a division of Stellar Automotive Group

## ONE STOP SUPPLIERS OF TRANSMISSION PARTS AND FLUIDS

### COMPANY PROFILE:

We have a unique union where customers can procure all their transmission parts and fluids from a single source. The options are extensive, customer service comprehensive, and pricing competitive. Stellar offers a full line of transmission parts and LUBEGARD® has the fluids to keep them running perfectly.

### PRODUCT LINES:

For over 25 years, Stellar Automotive Group has been committed to finding customers the best parts. Our direct relationships with top OE and aftermarket parts manufacturers throughout the world allow us to offer more options. In house development work allows us to create products in response to customer inquiries. We regularly customize kits to meet customer's specifications.

LUBEGARD® is a world leader in the research, development, and manufacture of patented high performing lubricants and related products. Our products have been approved, endorsed, recommended & used by OEM's, are the written solution in OEM technical service bulletins, and endorsed by the largest transmission chains. Whether you are looking for transmission and/or general repair fluids, LUBEGARD® has the solution.

### OUR PRODUCTS:

#### Stellar Offers:

- Bushings & Bushing Kits
- Hard Parts
- Solenoids & Sensors
- Bands & Sprags
- Washer & Washer Kits
- Sealing Rings & Ring Kits
- Frictions & Friction Modules
- Steels & Steel Modules
- Pistons & Piston Kits

- Filters
- Seals
- OE Belts & Chains
- Torque Converter Parts
- Valve Body Parts
- CVT Parts
- Coolers
- Overhauls
- And more...

#### Lubegard® Offers:

- Transmission Fluids, Additives & Flushes
- Transmission Filters/Filter Kits
- Professional Assembly Aids
- Multi-purpose Lubricants
- Gear & Engine Additives
- Cooling System Additives
- Power Steering Fluids & Additives
- Fuel & Brake System Products

# MTS

DIESEL PERFORMANCE

## COMPANY PROFILE

While there are many family-owned specialty distributors of stock transmission parts, here at Midwest Transmission Supply, we differ by having a varied line of performance transmission parts and units. Our lines include parts for automatic transmission rebuilds, manual transmission rebuilds and transfer cases. We continue to operate as a small, family-owned business, having nine employees running a 15,000 square-foot facility. It's a team effort here at MTS, working with customers and taking orders. We add value to every customer relationship, and sometimes it's different from one call to the next. We have the deep technical expertise to help our customers with their builds. People all across the country want to enhance their vehicle, and we have all the parts that go into making any of the various popular units more robust.

## PRODUCTS

Performance products is where we really stand out. Our diesel line includes custom kits, custom solenoids, billet parts and flex plates. Many of our shops specialize exclusively in diesel trucks, building their own transmission units out of parts that we supply. Beginning a build, we'll start adding and modifying the parts that go into the stock unit, testing each step of the way until we have the performance unit we want. We sell these solutions to our customers as parts, and Certified Transmission in Omaha, NE, sells the complete units that include those parts. We are one of the biggest billet suppliers in the U.S. for the TCS parts line, and we're Chrysler and Goerend Transmission distributors also. We exchange information and ideas with a number of technical people throughout the industry which allows us to obtain better parts and build better units for our customers, so they get the best of all of our efforts and one incredible unit.

## CUSTOMER SUPPORT

Technical support is what allows us to compete and prosper. It's something that a customer gets from MTS that isn't available everywhere else. We ask the questions needed to begin a project and then we'll go through the parts that are needed. We may start instead by diagnosing a vehicle problem and coming up with the diagnosis based on the experience we have here. Because we offer the technical help, we gather the experience that comes from working through those problems. Many of the shops we serve maintain stock inventory themselves as opposed to only buying when they have a car on the lift. Because of this, the shops we work with are able to immediately start their jobs without waiting on a delivery. Our network of 400 customer shops are found across a seven-state area, including North and South Dakota, Minnesota, Nebraska, Iowa, Kansas and Missouri.

## WHAT'S NEW

We are pleased to announce the arrival of the Road Punisher series of rebuilt diesel performance transmissions! Road Punisher gives you the opportunity to torture the earth beneath the wheels of your Ford, Dodge, and GM diesel performance trucks! Regardless of your need for speed or towing a triple axle from your truck, Road Punisher series offers a great rebuilt transmission for your needs!

### Stage 1

Ideal for snowplows and trucks towing an extra 4,000 pounds, muscle cars & hot rods. Ideal for drivers wanting more than shift kits and overall better transmissions!

### Stage 2

Built for trucks towing loads up to 10,000 lbs. on a fifth wheel, engines w/ added horsepower of 100 to 225, street racers, and diesel engines chipped for more power!

### Stage 3

For heavy-duty trucks hauling loads of 10,000 lbs. or more, engines that have added horsepower of 250 or more, and drag cars running a quarter mile in under 12 seconds!

# Midwest Hard Parts Inc.

## WHERE WE CAME FROM:

Midwest Hard Parts has been supplying the BEST used automatic hard parts AND the GREATEST SERVICE to all transmission shops, production rebuilders, and parts suppliers since 2000. But our family has been dismantling and recycling transmissions for scrap & parts for far longer. We're located in Hamlin, Ia – population 177. We will literally always be a “small” “family” “business.” Giving each customer that “Hometown” treatment. But we still provide higher quality products, professional - yet generous customer services, and better than competitive prices in comparison to companies larger. We've always prided ourselves in evolving & adapting as demands & supplies have changed. MHPI's path began with scrapping metals, moved on to selling complete core units, and eventually end up where we are today – automatic transmission hard parts.

**“We've Got Your Hard Parts Covered”**

**“Let Us Be Your Hard Parts Hero”**

## WHERE WE'RE GOING:

Evolving and adapting has sustained us, and it will be what keeps us growing with you, into the future. Today's growth often comes in the form of technology. You can count on Midwest Hard Parts to continue building to better accommodate. Our website ([www.mhpi.co](http://www.mhpi.co)) will continue to expand, and you can depend on it to be an informative and easy platform: making locating & ordering hard parts – not so hard. See exactly what you're buying and know it's accurate and of top quality. We're not ONLY selling transmission hard parts; we also want to provide you peace of mind and assurance. Our staff is currently working on a YOUTUBE channel to post helpful videos for everyone in this industry to use –hints for tearing down units / specific parts and other related info. You can scan the QR codes below & go directly to our website, call us, text us, or email us. Our parts also come with a QR code on the label. Scan it and you're sent directly to our website for a quicker, easier reordering process. Please continue to evolve and adapt with us for years to come! **“Whether you want to call or click, make MHPI your only pick”**

## OUR THANK YOU NOTES:

We want to extend a HUGE thank you to all our valued vendors. Specifically, those who continued to help us during some very difficult family matters that nearly ended MHPI. Without all of you, we would not be able to serve our great customers! All the customers, whether you've bought from us ONE time or every day, we cannot thank you enough. Finally – we say THANK YOU to every one of our employees. Past and present. You've all touched this business in a way that has helped us become who are today. You are MHPI and you are our family.

**Extra-Special Thanks To:**

**Chad, Jesse, Mark, & David!**

## ABOUT NAPC

North American Powertrain Components (NAPC) is a key player in the automotive parts industry; excelling in remanufacturing and supplying top of the line transmissions, torque converters, differentials, transfer cases, driveshafts and engines. With progressive build processes, quality parts and unparalleled expertise in the industry, NAPC has set the bar for transmissions and related components. NAPC ships anywhere and everywhere and stands behind all remanufactured products with a 3YR/160,000KM (non-commercial) or 3YR/100,000KM (commercial & Heavy Hauler) warranty.

## THE NAPC DIFFERENCE

NAPC is driven to be the best, with a team of highly trained technicians, a global network of parts suppliers and uncompromising manufacturing quality.

- > Highly trained technicians and support
- > Components for all makes and models
- > Fully stocked inventory, ready to ship
- > Global network of parts suppliers

## PARTS & SERVICES

We stock a complete inventory of automatic transmissions for Ford, Chrysler, Dodge, GMC, Honda, Toyota, Hyundai, BMW, Volvo, Volkswagen, Mercedes FWD and RWD vehicles. Using only the highest quality parts, transmissions by NAPC are built to last. Each remanufactured transmission is built with longevity in mind through the most innovative processes available.

NAPC also offers in-house installation and repair service for all makes and models. Our large inventory gives us the ability to provide same day service, getting customers back on the road quickly!

## OUR NETWORK

North American Powertrain Components is proud to have a growing network of Authorized Dealers throughout North America. We build relationships with like-minded business' and stand behind each of our Authorized Dealer locations. All of our vendors have access to premium NAPC remanufactured powertrain products – transmissions, torque converters, differentials, transfer cases, driveshafts and more.

Looking to get great products in your own backyard? Check out our representatives located near you at NAPC.CA. **Want to join our network?** Contact: [todd.crane@napc.ca](mailto:todd.crane@napc.ca)

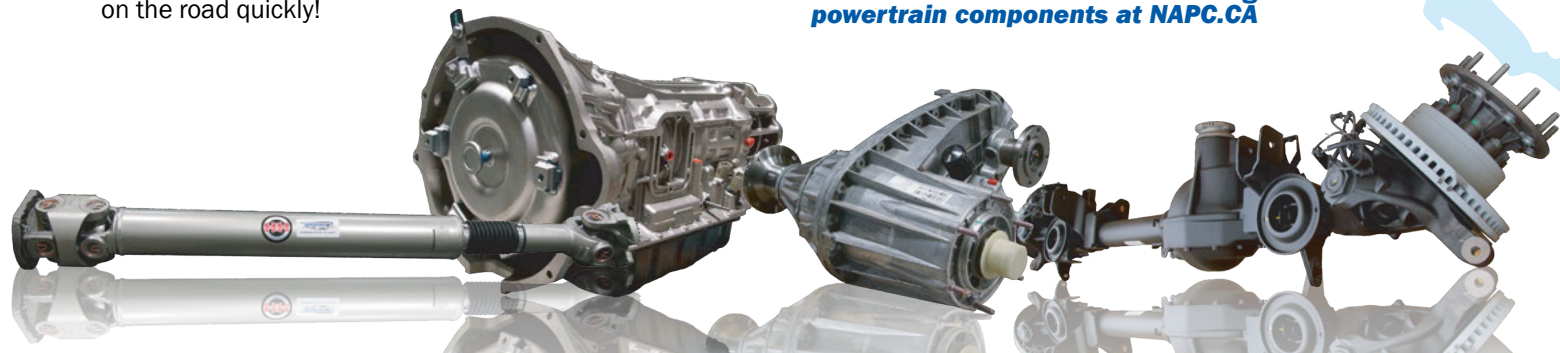

## HEAVY HAULER SERIES

Whether you're racing or towing, get the power you need with NAPC's Heavy Hauler series. Our proprietary Heavy Hauler transmissions are rigorously tested on our custom Superflo dyno to ensure function and quality. Every transmission has been re-engineered for increased durability and strength when compared to the OEM spec. Countless hours of R&D have gone into perfecting our build process and ultimately the final product.

**Each unit is tested, tuned & Engineered Beyond the Gears!** Get the original NAPC Heavy Hauler and feel secure in your investment with a industry leading warranty of 3YR/100,000KM.

Our Heavy Hauler series, heavy duty Allison 1000 & 2000, E40D, 4R100, 5R110W, 4L60/65E, TH350, TH400, 68RFE, AS68RC, 47RE/RH, 48RE, 6R140 & 6R80 are built with quality parts to tolerate extreme towing & racing performance loads. Get the best built heavy duty transmission on the market today!

## Easily Push Up To 22,000 lbs.!

### PRODUCTS

The battery powered electric **Automotive PowerPusher**<sup>™</sup> is a heavy-duty, multi-use device designed to move immobilized vehicles up to **22,000 lbs.** on level grade with only two people instead of six. It safely and efficiently moves equipment while reducing the risk of injury.

### COMPANY PROFILE

PowerPusher<sup>®</sup>, Division of Nu-Star Inc., has specialized in pedestrian-operated, battery-powered, motorized tugs for over 50 years. These tugs are designed to meet safety and productivity initiatives while driving down maintenance and labor costs. PowerPusher meets the diverse needs of customers pushing or pulling wheeled or semi-wheeled loads moving everything from cars, carts, trolleys and rail cars to airplanes and modular buildings.

**TECHNICAL ASSISTANCE** | Can't figure out an installation issue? Contact us through our toll-free tech line at 1-800-872-6649. Our website, [www.transmissionkits.com](http://www.transmissionkits.com), is also filled with technical information to make your job easier.

**HISTORY** | Precision International is the most experienced kit manufacturer in the business. Our extensive kit coverage and inventory always allow us to supply our customers with the latest products when they need them. Our ISO 9001:2008 certification assures the quality level of our product. We sell on the distributor level with a full range of kits for any automatic transmission in the field.

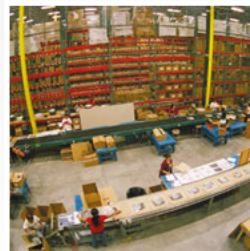

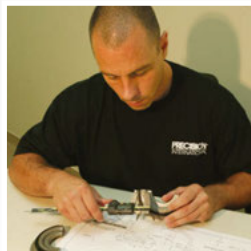

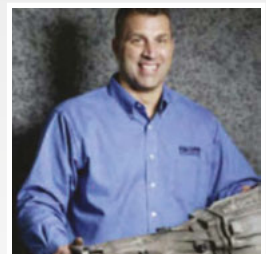

**OUR PRODUCT LINE** | We are a full line manufacturer of domestic and foreign gasket and seal kits, overhaul kits, banner and master kits. We also have a full line of transfer-case kits.

**CUSTOMER SUPPORT** | We pride ourselves on updating rebuilders through our Precision Pointer series of technical sheets. These sheets can be found in our overhaul kits.

**TECHNICAL TRAINING AND SUPPORT** | Precision International offers an ongoing series of informative videos featuring Certified Master Technician John Parmenter available for viewing at [www.transmissionkits.com](http://www.transmissionkits.com). You can watch our resident transmission expert install kits, make repairs, and work through common transmission rebuild problems. We also provide a series of Problem Solvers pertaining to overhaul kits and transmission updates. Plus, we include Precision Pointers that offer a full range of technical information in many of our overhaul kits.

**POWER THAT MOVES**

**WHO WE ARE**

Raybestos Powertrain has manufactured quality, American-made parts to the automotive industry since 1902. Today, you'll find our premium parts in transmissions across the country and around the globe. We believe automatic transmission professionals deserve original thinking. That's why OEM standards drive the premium quality of each Raybestos Powertrain friction plate. It's our OE dedication that powers our aftermarket innovations.

**PREMIUM TRANSMISSION PRODUCT LINES**

- Friction & Steel Clutch Plates & Modules
- Rigid and Flex Friction Bands
- Filters & Filter Kits
- Speed Sensors & Solenoids
- Sprags and Roller Clutches
- Torque Converter Components

**FRICTION MATERIAL GUIDE**

	Improved durability for passenger vehicles.
	Improved performance for Honda vehicles.
	Street-strip, tuner, and off-road vehicles.
	High-stress, HD, commercial, street-strip racing.
	High energy absorption, low wear for racing.

**VERTICALLY INTEGRATED SUPPLY CHAIN - MADE IN USA**

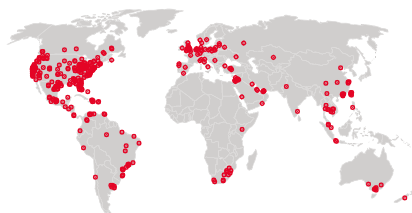

Raybestos Powertrain is a vertically integrated automatic transmission friction clutch plate manufacturer. We make our own friction material paper and our own adhesives in our Crawfordsville, Indiana USA manufacturing plant. The friction paper is then blanked and processed before being bonded to a steel core with our own internally manufactured adhesive materials for aftermarket, OE, and Off-Highway applications.

**UNIQUE SUPPLY CHAIN ADVANTAGES**

- Friction Paper Mill - Crawfordsville, IN Plant
- R&D Testing Paper Mill - Crawfordsville, IN R&D Tech Center
- Adhesive Production - Crawfordsville, IN Plant
- Automatic Transmission Filter Production - Sullivan, IN Plant

**WHERE TO BUY**

Our transmission parts distributors are found across the country & around the world. Visit [RaybestosPowertrain.com/where-to-buy](http://RaybestosPowertrain.com/where-to-buy) to find a distributor near you.

## FEATURED PRODUCTS

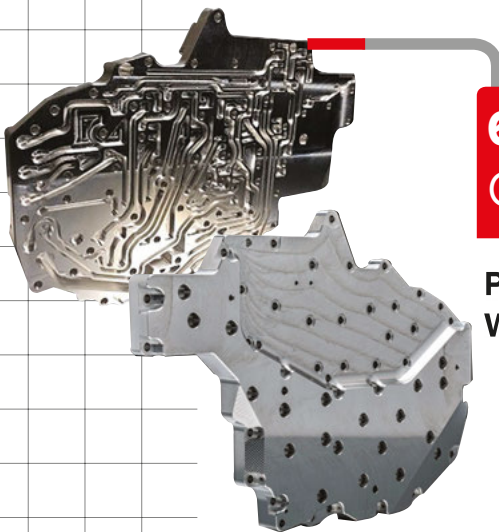

### 68RFE 700HP PRO DRUM

Part# 68RFE-601PRO

Provides an additional 29% of clutch surface area without changing the apply piston surface area:

- ✓ Drop In Kit! Does Not require any machining, simply build it and go!
- ✓ 16 Single Sided Frictions in OD, 29% Increase Over Factory
- ✓ 12 Single Sided Frictions in UD, 18% Increase Over Factory
- ✓ Billet OD/Reverse Pressure Plate
- ✓ Billet UD/OD Pressure Plate
- ✓ Billet 6061 CNC Construction
- ✓ This kit does NOT include any clutches or steels

### 68RFE BILLET CHANNEL PLATE

Available in 2 versions:  
2007.5-2018 and 2019+

Perfectly Flat, Uses OEM Filter and Full Depth Critical Worm Track Circuits:

- ✓ 6061 billet aluminum construction
- ✓ Can be used with ANY OEM replacement filter
- ✓ Micro polished worm track surface. There are no visible or perceptible machining marks or stepovers. No leak chances.
- ✓ Angle milled step downs increase rigidity in problematic flexing areas.

# Sonnax Transmission Company

**Sonnax Transmission Company** is excited to announce a recent reorganization, integrating Rostra Powertrain Controls into the company's Vermont- and North Carolina-based Sonnax operations. This concludes several years of internal moves aligning teams and resources to better serve the transmission aftermarket.

Through this integration, Rostra and Sonnax will become a single, transmission-focused organization. This new structure will synchronize our product development efforts, reduce time to market of new products and allow us to make improvements in quality and delivery to our shared customers.

What sets us apart from the competition is our passion for quality and innovation. This passion exhibits itself in our long-standing philosophy to address the root cause of a problem, and not just treat the symptoms. In striving to discover what causes common transmission and converter problems, we meld new ideas, materials and state-of-the-art testing to ensure our parts will restore OE performance, or make it better-than-new.

**ROSTRA**  
*Powertrain Controls*

**Rostra Powertrain Controls** is a leading manufacturer and distributor of OE and aftermarket powertrain electronics. Product specialties include solenoids, sensors, switches, wire harnesses and modulators.

With more than 30 years of experience in the automatic transmission parts arena, Rostra Powertrain is recognized globally for exceptional quality and customer service.

Learn more at [www.rostrapowertrain.com](http://www.rostrapowertrain.com).

**sonnax**<sup>®</sup>

**Sonnax** designs, manufactures, tests and distributes a wide variety of components used to remanufacture torque converters, rebuild automatic transmissions, upgrade driveshafts and protect the driveline from over-torque damage.

After more than 30 years in business, the Sonnax name has become synonymous with quality parts, outstanding service and technical expertise that are second to none.

## ABOUT OUR COMPANY

Schaeffer has always stood for products that go beyond expectations, made and sold by people who go the extra mile. A company of friendly, helpful, down-to-earth folks who work with integrity, expertise and a passion for what we do—that's who we are.

- Larry Hofstetter, President
- Jim Carroll, Executive Vice President of Operations
- Steve Rober, National Sales Manager

Founded in 1839, Schaeffer's Specialized Lubricants is a sixth-generation, family-owned company that manufactures products in the United States. Schaeffer's product line features over 300 fully formulated products, including engine oils, greases, hydraulic fluids, food grade lubricants, gear lubricants, transmission fluids, industrial lubricants and specialty products.

## SCHAEFFER'S TRANSMISSION FLUIDS

Components are running hotter in today's vehicles, and that can shorten the service life of your transmission. Heat accelerates wear and damage on metal surfaces, allowing worn bits to contaminate the transmission fluid. Over time, heat causes sludge and deposits to form and clog up your gears.

Using advanced base oils and frictional modification, Schaeffer's transmission fluids withstand higher temperatures and significantly reduce friction. Costly components are protected from heat damage and wear, and fluids last longer while maintaining performance.

- Anti-wear protection for clutches, gears and pumps.
- Less brake chatter and quieter shifting.
- Reduces operating temperatures.
- Proper friction control for long life performance and smooth lock-ups,
- Excellent seal and material compatibility.

**WANT TO MAXIMIZE  
 YOUR TRANSMISSION'S  
 LIFE? WE'RE  
 READY TO HELP!**

## **PROFILE**

With over 30 years of hard work and dedication to excellence, Transmission Specialties has become one of the premiere manufacturers of high performance automatic transmissions, torque converters and related parts in the U.S.A.

## **PERSONAL SERVICE**

Service is where Transmission Specialties prevails, when you call to place an order, you will get a person not an automated phone system to waste your time. We pride ourselves on same day shipping. ***"We are a company large enough to serve you and yet, we are small enough to know you!"***

## **PRODUCTS**

Some of our innovative products, such as the "XLS-Spragless" Torque Converters, Pro-Line Powerglide Transmissions, 1:80 "Unbreakable" Gear Sets, Torque Converter Component Kits and Transmission Related Parts are all manufactured in-house. Every product is specified to meet or exceed the toughest industry standards.

# INDUSTRY-LEADING DATA AND TECHNOLOGY

Quality. Availability. Innovation.

Simplifying complex vehicle repair to keep the world moving.

## OUR LEADERSHIP TEAM

NEIL **SETHI** | President & CEO

JOE **LEVANDUSKI** | Executive VP, CFO, COO

TOM **DEMILLE** | Executive VP, *Sales and Marketing*

BRYAN **CHAIKIN** | Executive VP, *Innovation*

KEVIN **ROZSA** | Executive VP, *Business Development*

ANNA **GLUCK** | VP, *Human Resources*

GREG **KAGANOVICH** | VP, *Supply Chain*

BEN **DEPOMPEI** | President

## QUALITY.

It begins with

Our industry experts are dedicated to partnering with leading manufacturers who offer premium parts and products. Whether OE, after-market, or re-manufactured, we supply the right part for every job.

## AVAILABILITY.

It continues with

Even the best parts are useless unless you can get them delivered when you need them. Our continually expanding distribution network ensures same-day and next-day delivery, and our fleet of employee-driven vehicles offers an unmatched experience.

## INNOVATION.

It's enhanced by

Transmissions are complex. So is business. We are continually researching and developing parts, products, and software that enable your shop to run efficiently and grow in a changing landscape. From transend™, the online parts lookup and ordering technology, to our offering of hybrid batteries, the future is now at Transtar.

## SERVICE.

And the final word is

Technologies advance and transmissions change, but our commitment to providing your shop with the highest possible level of service from the absolute best sales representatives in the industry – every day – will never waver.

## WHO WE ARE

Tri Component has a 55-year reputation supplying the automatic transmission industry with innovative, reliable problem-solving products. Tri's product line has been developed through years of research and market experience. In its design work, Tri incorporates feedback from hundreds of customers throughout the world.

Tri specializes in providing parts and solutions for the torque converter rebuilding industry. Tri has extensive expertise in a variety of friction materials and their end use including premium segmented linings often exceeding OE design limitations.

Tri Component is located in a 50,000 sq foot facility in the Bronx, NY and takes pride in its dedicated staff, of which a significant number have been with Tri for over several decades.

**Our mission is to provide you, the customer, with fast, knowledgeable service, exceeding your expectations at favorable pricing.**

973 Brook Ave. Bronx NY 10451  
Fax: 718-402-2345 Tel.: 718-402-2400

## PRODUCT LINE

At Tri, we are constantly expanding our line of torque converter parts to include the latest in international applications. We also offer antique and specialized transmission parts. Our extensive product line includes:

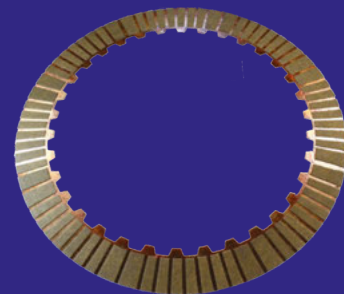

- Lockup Friction Linings
- Seals: O-rings, PTFE, Metal Clad Seals
- Friction & Steel Clutch Plates
- Bearings
- Bushings
- Impeller Hubs
- Turbine Hubs
- Turbine Washers
- Stator Caps
- Inner Races
- Turbine Washers
- Hub Caps
- Accordion Springs
- Rollers
- Shims

## FEATURED PRODUCTS

Tri Component offers a wide range of grooved lockup linings with OE groove design, as well as friction linings with cut-outs. Linings can be custom made of different friction materials such as Kevlar®, Tan, Carbon, High Carbon. Each of these grades will provide the performance that will satisfy customer's requirements and applications.

Tri Component proudly offers the industry advanced converter clutch plates HX-23-8 for Mercedes 722.6 and 722.9. Modules are also offered, which include all friction and steel plates. Parts are produced in Tri's Bronx, NY plant.
