## NEW 8F35 High Energy Friction Clutch Pack Module From Raybestos

The new 8F35 High Energy Friction Clutch Pack Module (Part #RCP96-522) features;

- (2) R500090 A Clutch 1,2,3,4,5,6 Waved HE
- (2) R500095 F Clutch 2, 8 Waved HE
- (2) R500120 C Clutch 3, 7 HE
- (3) R500115 B Clutch 4, 6, R HE
- (5) R500110 E Clutch 5,6,7,8 HE

The friction clutch plates utilize high energy friction material made up of a blend of Kevlar, ceramics, graphite, and carbon that produce smooth engagements to withstand higher friction-to-steel surface temperatures and meet OE performance and wear specifications.

The friction clutch plates are made in the USA and provide the following advantages:

- Superior shift feel and performance
- Smoother engagement characteristics
- Improved clutch life
- Reduced debris contamination
- Increased energy loading capacity
- Durability under tough conditions

## New Sonnax Remanufactured EPC Solenoid

Replace Ford 5R110W failed EPC solenoids with Sonnax remanufactured

EPC solenoid #36940E-RRP. Skip the hit and miss swapping out solenoids from cores or the expense of just going with new. Sonnax remanufactured solenoids are 100% disassembled, cleaned and precision-tested to meet OE specifications. Sonnax #36940E-RRP includes a new sleeve/valve assembly and plastic end cap. OE core must be supplied.

Visit [www.sonnax.com](http://www.sonnax.com) for more information.

## G-Tec Announces The Only Variable High-Flow Transmission Flusher On The Market

G-TEC by Flo-Dynamics, announces two new heavy duty transmission flushers available as of June 2022.

The #TTCF-9A is the company's flagship heavy duty model with an adjustable flow rate from 1-8 gallons per minute, specially developed for every type of vehicle, from automobiles to heavy duty transmission cooling systems requiring higher flow rates.

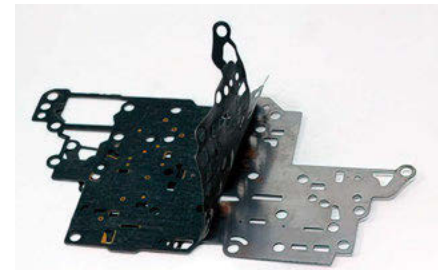

Users can select from multiple flush cycles ranging from 15-120 minutes, and verify system cleanliness by checking the reusable 60 micron cleanable filter screen. Using the heating circulation mode, heating to a preset 140°F in 45 minutes is fast and easy. G-TEC's patent-pending heated flusher will flush and clean transmission coolers, lines or other component of contamination, sludge, varnish deposits, and particles from a failed transmission.

The company is also manufacturing a non-variable heavy duty base model designed for lower volume shops, the #TTCF-9B.

Both heavy duty flusher models are being produced at the Elkhart, Indiana manufacturing plant and meet the requirements of OE procedures when replacing transmissions and have been approved for use by Allison Transmission.

## NEW From TransTec® — Eco Gasket Wizard Bonded Separator Plate Gasket Liquid Remover

TransTec® Gasket Wizard™ was developed to allow you to easily and thoroughly remove gasket paper from separator plates! Instead of spending hours scraping the gasket paper off only to scratch and gouge the plate, simply soak the separator plate in the Gasket Wizard solution and watch the paper peel right off!

With the introduction of ECO Gasket Wizard™, you now have TWO (2) great Gasket Wizard Products to choose from:

### • Gasket Wizard™

The original Gasket Wizard™ comes in powder form and is mixed with water to create the soaking solution. This formulation can remove gasket paper in as little as 15 minutes — particularly when heated. Available throughout North America.

### • NEW ECO Gasket Wizard™

The NEW ECO Gasket Wizard™ is an environmentally friendly and 100% biodegradable formulation available in liquid form. ECO Gasket Wizard™ is just as effective as the original but has a longer soak time (up to 8 hours). Not available in Canada.

Visit [www.Transtec.com](http://www.Transtec.com) for more information.

## TOPDON® Releases Phoenix Max - Their Flagship Scan Tool

TOPDON® released their most anticipated professional scan tool to date. The Phoenix Max is a heavy-duty scan tool that offers auto shops more processing power, more capabilities, and more versatility than ever before. TOPDON's intention with the Phoenix Max was to create a scan tool that can do it all.

The Phoenix Max offers an impressive number of benefits and features. The tool comes with two years of free updates, a 4-channel oscilloscope, ADAS Compatibility, a smart MDCI, ADAS compatibility, 8 GB of RAM, HD add-ons, and an oversized 13.3-inch touch screen, the Phoenix Max provides unmatched functionality in every facet.

"The only thing I don't like about this tool is that I didn't have one when I was a technician. This is a workhorse of a diagnostic tool for auto shops, collision shops, and anybody working with Heavy-Duty trucks. I can honestly say that this scan tool is a game-changer," says Chad Schnitz, TOPDON USA Vice President.

## Atlas Automotive Equipment Offers Full Line of ALI Certified Lifts

Atlas Automotive Equipment offers a line of ALI (Automotive Lift Institute)

certified lifts. ALI certification ensures that the safety standards for automotive lifts in the U.S. are met. This testing covers the structural integrity, proper control function and overloading the lift beyond its rated capacity to ensure that the lift safely lives up to capacity claims without bending or breaking.

Atlas Automotive Equipment lifts are required to be audited annually to ensure the lifts comply with ALI's standards. These annual audits ensure that Atlas lifts continue to be held to the highest safety standards when it comes to lift safety.

"With the ALI certifications on our lifts, we can ensure consistency in our design and give peace of mind to our customers," said Mike Israel, Atlas Automotive product manager. "The ALI certifications verify that our lifts are built to stand up to tough treatment and to last longer."

Currently, Atlas has 11 automotive lifts that meet this comprehensive set of standards. The certification guarantees quality, strength, durability and overall safety.

For more information on the full line of ALI certified lifts, visit [www.atlasautoequipment.com/product-category/lifts/ali-certified](http://www.atlasautoequipment.com/product-category/lifts/ali-certified) or call (866) 898-2604.

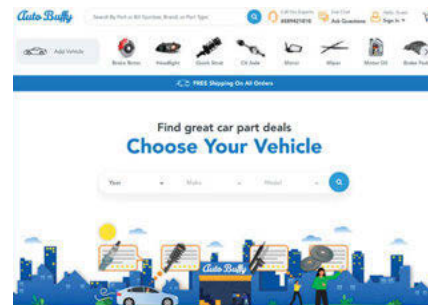

## Dynamic® Tool Brand Expands U.S. Presence with Improved Distribution, Online Store

The Dynamic® tool brand has launched an effort to expand its U.S. presence through improved distribution channels and access to its full product line on its website, [ShopDynamicTools.com](http://ShopDynamicTools.com). This endeavor gives U.S. customers a dependable new option for purchasing quality, budget-friendly tools that are serviced and warrantied by Gray Tools, a 110-year-old Canadian manufacturer and distributor of premium-grade hand tools.

Introduced in 2009, the Dynamic® tool brand was created by Gray Tools, a renowned North American manufacturer and distributor of premium hand tools founded in 1912, to meet the need for high quality tools at a budget-friendly price. Today, the Dynamic line consists of more than 2,000 products, including sockets, wrenches, pliers, hammers, chisels, locking tools and clamps, which are fully serviced and warrantied by Gray Tools. For more information, visit [ShopDynamicTools.com](http://ShopDynamicTools.com).

## AutoBuffy Logs 70% Growth After Launch of Mobile Auto Parts Delivery Website

AutoBuffy announced today the ecommerce automotive parts retailer has seen record growth of 70% in the first quarter of the year, after the launch of a new website designed to improve customer experiences online. The company offers low prices and free shipping for branded auto part kits and is on track to ship more than two million SKUs in 2022.

More than 95% of AutoBuffy customers, who purchased 150,000 auto parts kits in Q1 2022, accessed the website via a mobile device. The company's updated web portal provides a user-friendly landing page that helps customers better understand what parts they need. Powered by industry-leading ecommerce APIs, the site delivers automated notifications, order processing, and inventory management. Customers can search the site for the best price available for each part, with free shipping available on all orders.

Product pages on the Autobuffy website provide detailed information about each automotive parts brand available, including Autobuffy-specific reviews. Answers to common questions for each item are provided for each vehicle-specific part, with no universal parts available.
