

What Does WIT Mean To You?

“Partnership. I feel like I’m not alone in this industry. WIT will always have my back. Partners take care of one another. The partnership we’ve developed I know WIT will take care of me and I’m tickled.”

-Doug Wells, **Wells Trans Tech**

Partnership Starts With Our Customers!

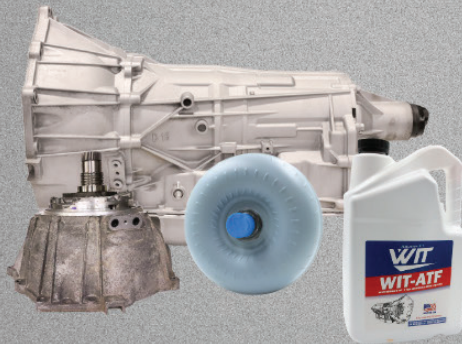

Every customer call taken is a new partner in our book. We look for partners that work with us not only in the good times but hard times as well. The true partnerships take hard work, honesty, communication, dedication, loyalty, devotion and many other things that really are not used anymore in the fast paced world that we live in. Most people are far too busy to slow down and take the steps necessary to ensure that these types of relationships are built. That in itself is recipe for failure. At WIT you have a partner and friend you can depend on. We will always have your back.

ESOP STRONG

Employee Stock Ownership Plan

One of the best things about partnering with WIT is we are completely 100% Employee Owned And Operated! So not only are you partners with WIT the company but every single employee puts their blood, sweat, and tears into their work for their own company! We are dedicated to helping you. We do **Whatever It Takes!**

Employee Owned & Operated Since 2004

How We Work Together

Here at WIT we strive to build each partnership and bond with our employees, our customers, and our vendors because we know that if we do that, our partnership will stay strong and make the company thrive in the long run. We work hard to build our company from the inside-out.

Building Partnerships That Matter

WIT means quality and timely parts for our customers and our business, with a good attitude and even better pricing.

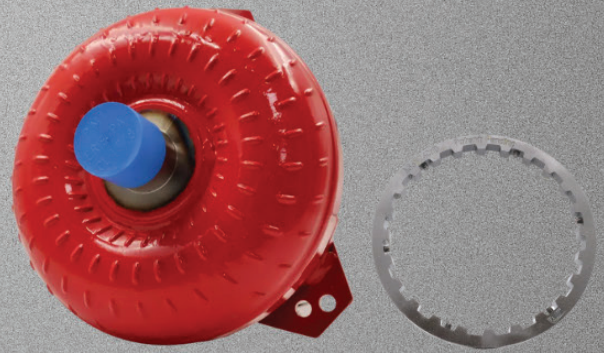

-Chris Hoscheid, **Mr. Transmission**
Sharonville, OH
