YOUR REBUILD PARTNER!

AUTOMATIC TRANSMISSION SERVICE GROUP

is the technical support leader of the automatic transmission industry.

Since 1985, ATSG's priority has been to better serve the automatic transmission shop, total car care owner, their employees, and technical professionals by providing unmatched technical support, bulletins, and membership enhancements, turning problems into solutions.

With our expert techs repair guidance providing over-the-phone diagnosis, hundreds of TechTran Manuals and Tech Guides, and newly expanded Tech Library, ATSG is ready to help tackle any transmission job big or small.

ATSG MEMBERSHIP

EXPERIENCE THE BENEFITS FOR \$75 PER MONTH

- Unlimited calls into ATSG's Technical Hotline
- Spanish speaking tech available
- Online access to all Technical Bulletins
- Online access to updated ATSG Tech Library
- Quick Reference online diagnostic material
- Discounts on all ATSG tech products like manuals, videos, and webinars
- Be a part of ATSG's Advantage Warranty Program
- Apply for the ETE REMAN Authorized Repair Network

ATSG TECHNICAL HOTLINE

- From accurate diagnosis, trouble-shooting, installation, and more, the Automatic Transmission Service Group has experienced transmission specialty technicians at the other end of the line, ready to see you through the job.

- With an ATSG Membership, enjoy unlimited access to our experts.
- With ATSG's Pay-Per-Case service, our technical consultants will be your resource from start to finish of a transmission issue for just \$75.
- Ahora podemos tomar y ayudarle con llamadas tecnicas en Espanol.

ATSG TECHNICAL WEBINARS

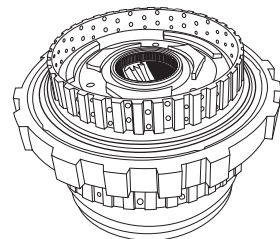

- In cities across the globe and online, ATSG Technical Webinars will save you time and money on misdiagnosed problems. The fixes and information from active research and techs in the field will help you get the job done right the first time.
- Included with the webinar is the ATSG Seminar Manuals mirroring the session offering case studies, diagrams, and reference materials.

ATSG PRODUCTS

With well over 200 years combined experience, ATSG brings knowledge, research, and expertise to each product created with one goal: to help you.

- TechTran Manuals
- TechGuide Manuals
- Tech Bulletins
- Confirmed Fixes
- Seminar Book Sets

COMPANY PROFILE

We're not just payment processors; we're your business consultants. At Aurora Payments (formerly Chosen Payments), we're experts in credit card processing, gift/loyalty programs, merchant cash advances, custom mobile apps and other payment processing and financial services.

Our focus is your success. We treat every relationship as a partnership, leveraging decades of auto industry experience to boost your growth. We look for ways to reduce or eliminate the cost of accepting credit cards, while embracing technology that your customers appreciate such as pay-by-text before vehicle pick-up.

A recognized leader in Merchant Services for automotive shops, Aurora Payments delivers on its promises with White Glove service. Join us today and experience true partnership.

ZERO COST PROCESSING

Introducing Zero Cost Processing for automotive professionals. Our cutting-edge technology adjusts your pricing to cover credit card fees, while offering surcharge and dual pricing discounts. Instantly increase profits by passing on credit card fees to consumers.

CUSTOMER SUPPORT

Aurora Payments offers 24/7 customer service including holidays. We understand the importance of being able to transact business at any time, day or night.

ATRA + CHOSEN PAYMENTS: YOUR PERFECT PARTNERSHIP

ATRA has teamed up with Aurora Payments to bring exclusive low rates and top-notch customer service to its members. As part of ATRA's endorsed partnership program, members get access to discounted products, services, and business opportunities.

By choosing ATRA's preferred Merchant Service Provider, you can enjoy the same cost-saving advantages that large retailers with multiple locations benefit from. Plus, members in good standing qualify for our unique guarantee: **If we can't save you money, Aurora Payments will cover your annual ATRA dues.**

For more information about the partnership, contact Carol Grant at 805-341-8366 or carol.grant@risewithaurora.com.

OUR PRODUCTS

www.bushingfix.com[®]

Replacement Bushings for
* automatic transmissions
* many manual transmissions
* transfer cases

We Offer Replacement Bushings

At BushingFix.com[®] we produce custom molded replacement bushings for shift cables, many transfer cases, automatic transmissions as well as MANY manual or standard transmissions.

We have replacement shift cable bushings for over 90% of automatic transmissions! Over the past year we have expanded from 17 replacement bushing kits to 24 replacement kits – plus we offer an Assorted Shop Set to provide shops with an assortment of replacement bushings to cover all your needs.

Our Motto – 'Replace the bushing – NOT the cable!' Our full line up of replacement bushings are designed with the shop and technician in mind – saving you time, making you money, and satisfying your customer! Our patented products provide a Lifetime Warranty as well!

Company Profile

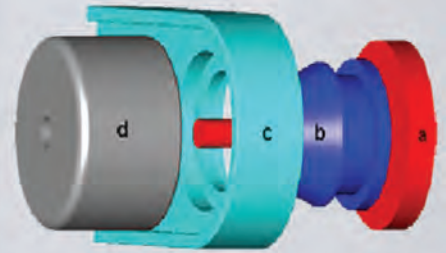

Why replace the cable when you can replace the BUSHING? BushingFix.com[®] is a division of Ascension Engineering specializing in the design and manufacturing of automotive replacement bushings. Our engineers develop superior replacement parts and installation systems for common part failures that the OEM has no specific part available. Our aim is to develop and manufacture patented replacement parts that save not only the client money but the cost of labor. We are also a proud member of the Automatic Transmission Rebuilders Association.

Easy Installation! No Drilling!
No Hassle! Perfect Fitment!
LIFETIME WARRANTY!

Assorted Shop Set – Great Value

Perfect set for shops, mechanics, and industry professionals! The set includes 23 kits from our Standard Bushing Collection. The parts are individually packaged inside the box complete with instructions. We have also included a 16 page full-color catalogue containing vehicle fitment and the list of our Specialty Bushing Collection. The Boxed Set will cover 90% of the automatic vehicles produced from the '80s to present day. Our replacement bushings turn a labor intense repair into a time saving pure profit fix that will save both you and the consumer money.

Customer Support

Our quality products are backed with quality customer support. Our on site, knowledgeable tech support, and dedicated account reps are available to answer any questions. Visit our website at www.bushingfix.com for Installation Videos, updated fitment data on over 5,000 makes and models. Plus, we continue to add products!

OE EXPERTISE FOR OE PERFORMANCE

COMPANY PROFILE

ENEOS is the largest oil company in Japan. For decades, ENEOS has worked with Japan's automakers to create advanced lubricants ideal for their production goals: increased fuel economy without sacrificing power or protection.

The results of ENEOS' efforts help ensure vehicles have the best possible start right out of the factory. And, ENEOS can provide these same, exacting standards to help ensure peak performance for the rest of each vehicle's life.

RESEARCH AND DEVELOPMENT

Through joint research and development, ENEOS' in-house teams have helped achieve pioneering industry milestones, such as increasing VI to provide fuel economy at low temperatures and transmission protection at high temperatures, by championing high-quality, synthetic base oils combined with proprietary blends of premium additives.

Each product is carefully researched and created by in-house labs in Japan. ENEOS uses the premium raw materials while blending their products at their plant in Childersburg, Alabama, where it is packaged using the highest quality standards available alongside the same bulk lubricants sent to OEM factories.

ENEOS TRANSMISSION FLUIDS

- **ECO Series:** Broad-matching transmission fluids
- **Import Series:** Specific OE replacement fluids
- Made using the specifications and quality required by OEMs

ENEOS provides transmission fluids suitable for most vehicles, including:

Toyota | Honda | Acura | Nissan | Subaru
Mitsubishi | KIA | Hyundai | GM DEXRON®-VI
Ford Mercon® LV and other American and European specs

Meet your REMAN PARTNER.

Working with ETE is a breeze. We make it easy to stay in touch and get the help you need when you call, text, or buy online with BuyETE.com. Your dedicated team of Customer Support Representatives and Technical Specialists are the most knowledgeable and helpful team in the industry - and they're just a call or click away!

We also need your core, and you need it out of your way. We take care of that too.

ANATOMY OF A REMAN

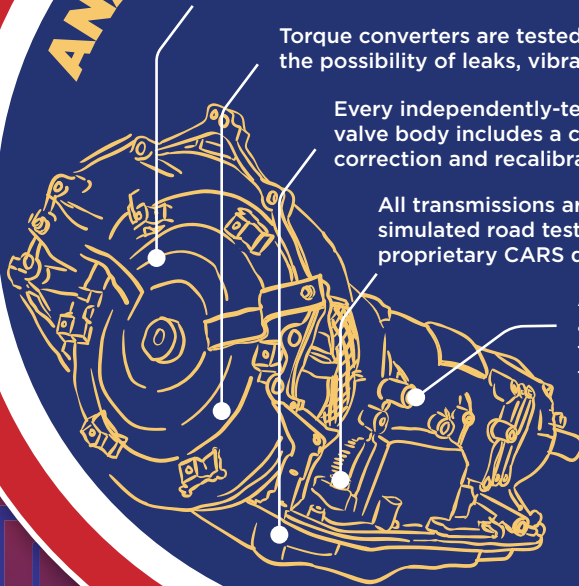

All transmissions include a remanufactured and improved torque converter.

Torque converters are tested to eliminate the possibility of leaks, vibration, and wear.

Every independently-tested fully reman valve body includes a complete system correction and recalibration kit.

All transmissions are hot, cold, load, and simulated road tested using our proprietary CARS dynamometer program.

All wear-prone valves are vacuum tested to confirm proper function.

3 YEARS/ UNLIMITED MILEAGE

Your customers are covered for 3 years/unlimited miles on standard and commercial applications.

PAID PARTS & LABOR

When installed at a certified shop, we pay parts and labor. Oh and if you included fluid on your original order, we'll cover that too.

NATIONWIDE COVERAGE

Your customers are covered anywhere (and everywhere) in the continental U.S.

TRANSFERABLE WARRANTY

Our Warranty is attached to the VIN and fully transferable with the vehicle ownership - no fees or registration paperwork required.

AUTOMOTIVE OIL COOLER QUICK CONNECTORS AND ADAPTERS

Company Profile

FFAC Fittings is a company with one specialized focus in mind. Vehicular OEM quick connectors and mating aftermarket fittings for complete powertrain oil cooler line repair or replacements.

Contact

Kevin Colvin - Founder/President
kevinc@ffacfittings.com

Development

FFAC Fittings was founded on the premise that aftermarket support for oil cooler line repair and replacements with regards to spring clip quick connectors has been neglected. Having worked at the original quick connector manufacturer (jiffy-tite/Oetiker) for 11 years, part of my duties consisted of product development. One project that I was involved with was aftermarket products. It was apparent that there was little support given to the independent technician that services vehicles that are 10 years and older. Also neglected in this market was the mechanic who repairs fleet vehicles or customizes classic vehicles with crate engines. Since it is always a challenge to keep oil cooler line inventory on hand, we are developing products to guarantee a robust fix, even if OE or OE lookalike replacement oil cooler line is unavailable. Our development strategy has been to synchronize the genuine OEM connectors with the best quality mated fittings, and hose.

What's New

Assortment Kits of Genuine OEM Quick connectors, clamps, crimping tools, and miscellaneous accessories for oil cooler line repair and replacements.

Products

Genuine OEM quick connectors, mated aftermarket fittings which adapt to JIC AN, or directly to hose, OEM genuine replacement clips, Oetiker Clamps, oil cooler hose.

Transmissions, Inc.
REBUILDING THE PAST, TO DRIVE THE FUTURE

HONDA & ACURA SPECIALISTS

H&A Transmissions, Inc. is a leading provider of quality remanufactured transmissions. We deliver nationwide to Honda & Acura dealerships, extended warranty companies, independent transmission shops and automotive repair specialists.

Quality Over Quantity

Every transmission is built using OEM/OEM compatible parts. Each unit goes through multiple points of cleaning and inspection.

Customer Focused

Our friendly, knowledgeable staff and tech support team are ready to assist. We have units in stock or can ship from one of our hubs.

Parts Offered

Our subsidiary company Gearspeed offers an extensive line of automatic and manual parts to complete your transmission builds.

- All components must meet stringent requirements for use
- Only OE/Compatible components are utilized for any required hard part replacement
- Cases are remanufactured utilizing CNC technology
- Pressure Switches are new and tested
- Solenoids are cleaned, flushed and tested, or new
- Remanufactured Torque Converters

Your Drivetrain Connection Since 1961

Over **60 years** of manufacturing and distributing quality parts at affordable prices. All with unbeatable customer service - that's the GFX difference.

Get the parts you need at competitive prices from professionals who get things done.

The Support Behind You

With a wide selection of aftermarket automatic transmission parts manufactured to exact OEM Standards, **GFX** is ready to keep you fully stocked.

- **Bushings and Bushing Kits**
- **Electrical Components**
- **Transmission Coolers**
- **ATF and CVT Fluids**
- **Transmission Kits**
- **Friction Plates**
- **Hard Parts**
- **Filters**
- **& More!**

Not seeing the automatic transmission part you need? We regularly update our catalog with new parts. To see our inventory, visit gfxcorp.com

1947

GOEREND®

2023

PUTTING POWER TO THE GROUND FOR 76 YEARS

"My dad started this business back in 1947. He worked on any vehicle that would fit through the front door of our shop, and some in the driveway that couldn't. Back then, we did everything from overhauling a carburetor on an 8N Ford tractor to rebuilding an injection pump in a GM diesel. When my brother Bob and I bought the business from Dad in 1978, we started specializing in automatic transmissions, torque converters, and chassis dynamometer testing.

Here, we value quality over quantity, which is why we use multiple specialty tools and in-house equipment that allow us to manufacture and test our products well beyond what the competition can do. Because of our expertise in these areas, along with our top-of-the-line equipment and tools, we have become the top producer of quality torque converters and transmission components for Dodge, GM, and Ford trucks.

Our workmanship, attention to detail, extensive equipment knowledge and work ethic has assured our customers for 76 years that they're receiving the highest caliber of products and service there is."

- Dave Goerend -

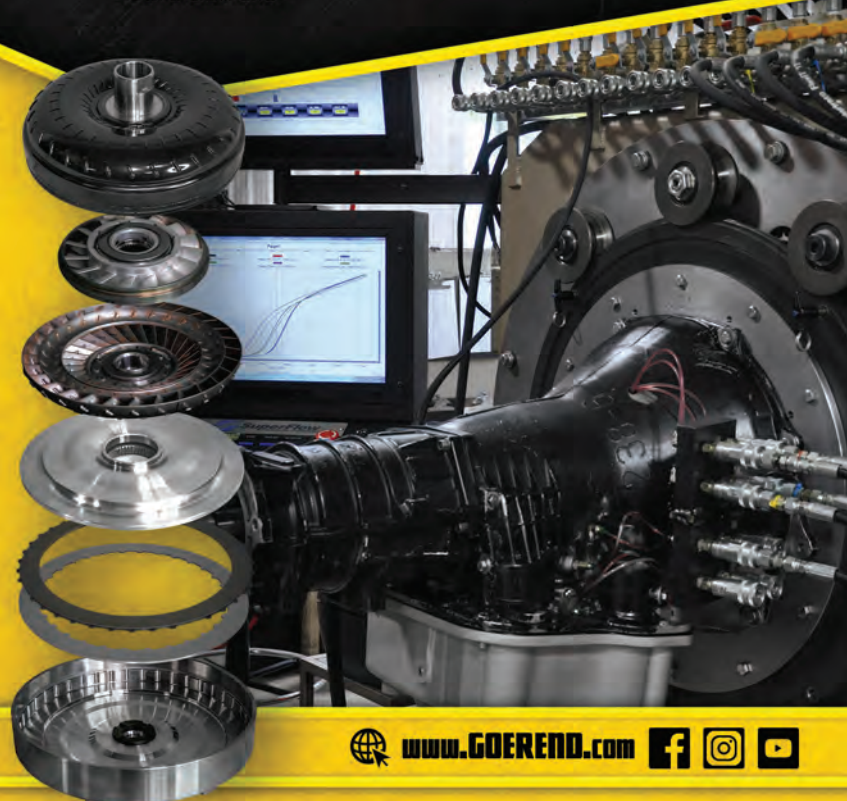

PRODUCTS

We take pride in all of the transmission parts we manufacture and make many of the parts we sell on our 11 in-house Mazak CNC machines. The several patents we hold are designed to increase performance while also correcting problems that occur with OEM and failed aftermarket parts. Our award winning PTO covers and transmission pans are prime examples of how our parts go beyond just their intended purpose while also ensuring our customers get the most out of their vehicle, whether they use it as a daily driver, towing rig or drag racing champion.

RESEARCH & DEVELOPEMENT

We have testing capabilities to analyze many aspects of our torque converters and parts, including both a chassis dynamometer and custom built transmission dynamometer. We use our advanced testing power to analyze critical data such as converter K-factor and torque ratio. This advanced ability to test our converters combined with decades of transmission knowledge is what makes us the highest standard in performance diesel torque converters.

Flo-Dynamics
 3300 Reedy Drive
 Elkhart, IN 46515
 (800) 303-5874
www.flodynamics.com

Company Profile

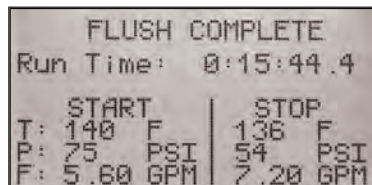

Flo-Dynamics, a division of Norco Industries was formed in 1992. We started out engineering transmission fluid exchangers for several of the OE's. Over the years, we expanded both the markets and product offering. In January of 2018, we acquired the well know and respected company, G-TEC, manufacturer of transmission flush machines. G-TEC has been providing quality equipment since 1991.

The People

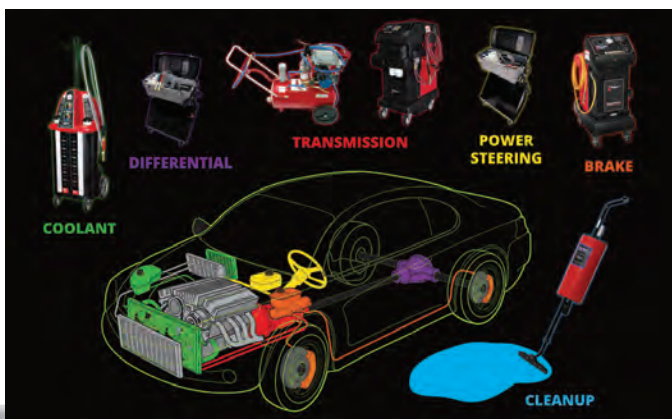

Frank Casale, VP
 Steve Anderson, Sales Manager
 Marty Gehrke, Customer Service Manager
 Scott Defebaugh, Tech/Engineer Manager

What's New

The Flo-Dynamics High Flow Hydraulic System Flushers will flush and clean transmission coolers and lines or any hydraulic system of contamination, sludge, varnish deposits, and particles from a failed transmission. The TTCF-9A variable flow unit, with an adjustable flow rate from 1-8 GPM, is specially developed for every type of vehicle, from automobiles to heavy duty transmission cooling systems requiring higher flow rates. The TTCF-9B base unit has a flow rate of 8 GPM to clean heavy duty transmission cooling systems requiring high flow rates.

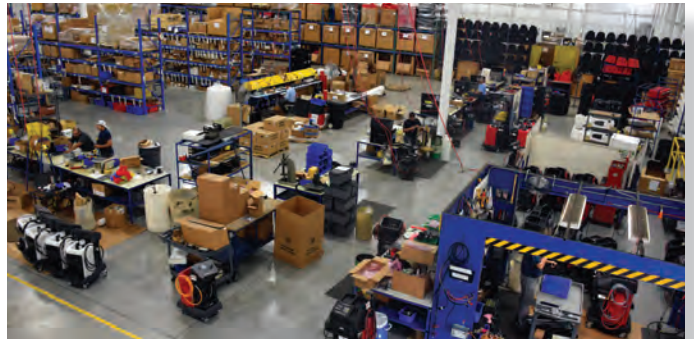

Flush cycle results displayed live

Products

Flo-Dynamics is a manufacturer of Fluid maintenance service equipment. From fluid maintenance equipment for Transmission, Power Steering, Coolant, Brake, Differential, AC, and DEF. We also manufacturer Transmission flush machines (G-TEC) along with innovative equipment to clean up spills (Air/Vac).

Research and Development

Flo-Dynamics, a leader in the automotive industry.
 We pride ourselves for engineering and designing equipment from the ground up. We produce equipment that the techs ask for, not what someone thinks they need. This comes from spending time in the shops with technicians who use our equipment. Flo-Dynamics was the first to the market with transmission fluid exchangers. Flo-Dynamics produces the fastest transmission dipstick service machine in the industry. Units include patented features like power lost memory, pump/manifold design, electronic measuring systems, just to name a few. We were the first with coolant machine that combines both vac/fill and full flush service. First with smart transmission machine. Patented remote pendant for easier power steering service. Brake machine that can service gas, hybrids and electrical vehicles. More OE approvals than any other manufacture in our category of fluid service equipment. Leading the way for 26 years.

Customer Support

We believe that support after the sale is just as important as before the sale. We have internal and local sales teams, along with internal tech departments and nationwide service center techs to provide support of our equipment. for more information, including operation videos, quick start guides, adapter charts, manuals, parts list, and more, visit our website at www.flodynamics.com.

COMPANY PROFILE

While there are many family-owned specialty distributors of stock transmission parts, here at Midwest Transmission Supply, we differ by having a varied line of performance transmission parts and units. Our lines include parts for automatic transmission rebuilds, manual transmission rebuilds and transfer cases. We continue to operate as a small, family-owned business, having nine employees running a 15,000 square-foot facility. It's a team effort here at MTS, working with customers and taking orders. We add value to every customer relationship, and sometimes it's different from one call to the next. We have the deep technical expertise to help our customers with their builds. People all across the country want to enhance their vehicle, and we have all the parts that go into making any of the various popular units more robust.

PRODUCTS

Performance products is where we really stand out. Our diesel line includes custom kits, custom solenoids, billet parts and flex plates. Many of our shops specialize exclusively in diesel trucks, building their own transmission units out of parts that we supply. Beginning a build, we'll start adding and modifying the parts that go into the stock unit, testing each step of the way until we have the performance unit we want. We sell these solutions to our customers as parts, and Certified Transmission in Omaha, NE, sells the complete units that include those parts. We are one of the biggest billet suppliers in the U.S. for the TCS parts line, and we're Chrysler and Goerend Transmission distributors also. We exchange information and ideas with a number of technical people throughout the industry which allows us to obtain better parts and build better units for our customers, so they get the best of all of our efforts and one incredible unit.

CUSTOMER SUPPORT

Technical support is what allows us to compete and prosper. It's something that a customer gets from MTS that isn't available everywhere else. We ask the questions needed to begin a project and then we'll go through the parts that are needed. We may start instead by diagnosing a vehicle problem and coming up with the diagnosis based on the experience we have here. Because we offer the technical help, we gather the experience that comes from working through those problems. Many of the shops we serve maintain stock inventory themselves as opposed to only buying when they have a car on the lift. Because of this, the shops we work with are able to immediately start their jobs without waiting on a delivery. Our network of 400 customer shops are found across a seven-state area, including North and South Dakota, Minnesota, Nebraska, Iowa, Kansas and Missouri.

WHAT'S NEW

We are pleased to announce the arrival of the Road Punisher series of rebuilt diesel performance transmissions! Road Punisher gives you the opportunity to torture the earth beneath the wheels of your Ford, Dodge, and GM diesel performance trucks! Regardless of your need for speed or towing a triple axle from your truck, Road Punisher series offers a great rebuilt transmission for your needs!

Stage 1

Ideal for snowplows and trucks towing an extra 4,000 pounds, muscle cars & hot rods. Ideal for drivers wanting more than shift kits and overall better transmissions!

Stage 2

Built for trucks towing loads up to 10,000 lbs. on a fifth wheel, engines w/ added horsepower of 100 to 225, street racers, and diesel engines chipped for more power!

Stage 3

For heavy-duty trucks hauling loads of 10,000 lbs. or more, engines that have added horsepower of 250 or more, and drag cars running a quarter mile in under 12 seconds!

LINTEX

OE SUPPLIER

OEM 20,000,000+ Pcs/Year

WWW.LINTEXCN.COM

Committed to become the world's leading supplier of wet friction systems.

Company Profile

Nantong Lintex Advanced Materials Co.,LTD is the most professional manufacturer of paper-based friction disc & steel plate for AT, CVT, DCT, DHT and other fields such as commercial vehicle, heavy-duty machinery and agricultural & forestry machinery etc., in China; OE supplier of SAIC, Geely, BYD, Great Wall, PUNCH POWERTRAIN, John Deere, etc. We have more than 2,500 different kinds of products. Lintex is aiming to be the global leading supplier of wet friction systems.

Research & Development:

Lintex R&D team members are mainly from Japan and China, and the core members have been working in this field for over 15 years. Lintex has mastered all the core technology of friction plate & steel plate, including research and development of paper-based friction materials, paper making process development, friction plate & steel plate production.

Lintex has strong R&D capability and professional testers, such as SAE#2 tester, ZF GK3 tester, Stroking tester, LVFA tester, etc.

NATIONAL TRANSMISSION PRODUCTS

THE BEST FOR THE BEST

Our job is to make your job easier.

This year marks the 50th anniversary of National Transmission Products (NATPRO), one of the industry’s earliest and most seasoned and successful wholesale distributors of automatic transmission kits and components in the United States. Even after five decades of existence, NATPRO’s core philosophy of providing the highest quality parts remains unchanged. Our experienced customer service representatives are just a phone call away to assist you with technical and sales support.

- Best fill-rate in the industry
- Quick, convenient delivery
- Technical support
- Top notch customer service
- On-Trac, UPS and GSO available

PowerPusher®
If It Rolls... We Can Move It.™

PowerPusher®, A Division of Nu-Star, Inc.
1425 Stagecoach Road
Shakopee, MN 55379
800.800.9274

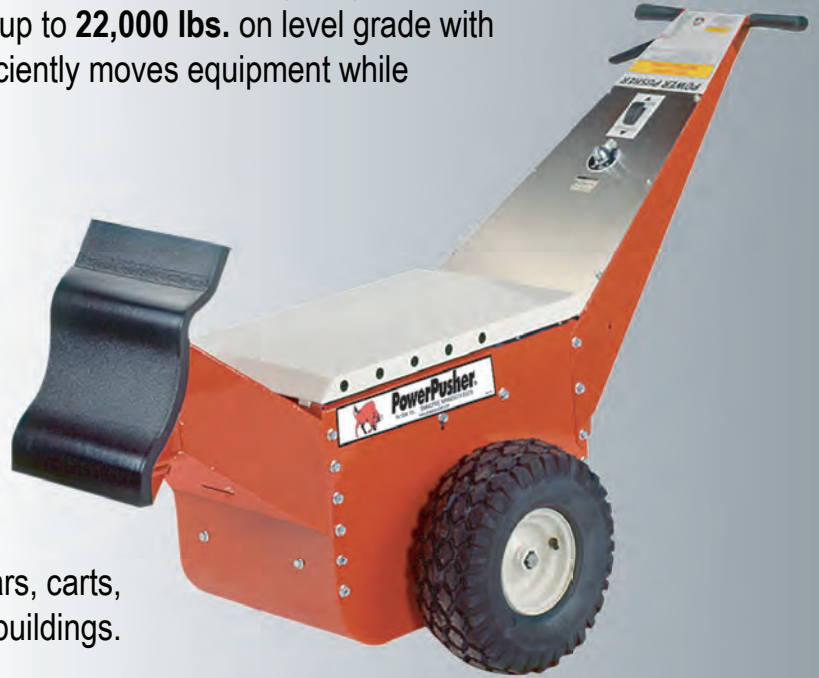

Easily Push Up To 22,000 lbs.!

PRODUCTS

The battery powered electric **Automotive PowerPusher™** is a heavy-duty, multi-use device designed to move immobilized vehicles up to **22,000 lbs.** on level grade with only two people instead of six. It safely and efficiently moves equipment while reducing the risk of injury.

COMPANY PROFILE

PowerPusher®, Division of Nu-Star Inc., has specialized in pedestrian-operated, battery-powered, motorized tugs for over 50 years. These tugs are designed to meet safety and productivity initiatives while driving down maintenance and labor costs. PowerPusher meets the diverse needs of customers pushing or pulling wheeled or semi-wheeled loads moving everything from cars, carts, trolleys and rail cars to airplanes and modular buildings.

TECHNICAL ASSISTANCE | Can't figure out an installation issue? Contact us through our toll-free tech line at 1-800-872-6649. Our website, www.transmissionkits.com, is also filled with technical information to make your job easier.

HISTORY | Precision International is the most experienced kit manufacturer in the business. Our extensive kit coverage and inventory always allow us to supply our customers with the latest products when they need them. Our ISO 9001:2008 certification assures the quality level of our product. We sell on the distributor level with a full range of kits for any automatic transmission in the field.

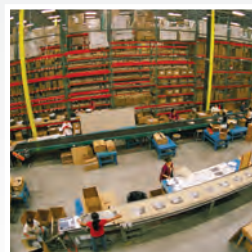

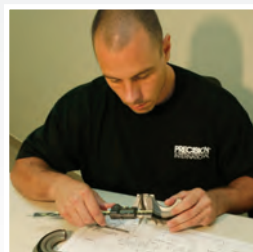

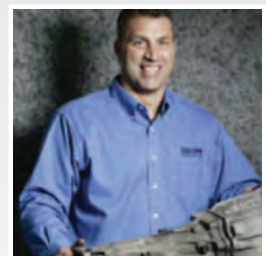

OUR PRODUCT LINE | We are a full line manufacturer of domestic and foreign gasket and seal kits, overhaul kits, banner and master kits. We also have a full line of transfer-case kits.

CUSTOMER SUPPORT | We pride ourselves on updating rebuilders through our Precision Pointer series of technical sheets. These sheets can be found in our overhaul kits.

TECHNICAL TRAINING AND SUPPORT | Precision International offers an ongoing series of informative videos featuring Certified Master Technician John Parmenter available for viewing at www.transmissionkits.com. You can watch our resident transmission expert install kits, make repairs, and work through common transmission rebuild problems. We also provide a series of Problem Solvers pertaining to overhaul kits and transmission updates. Plus, we include Precision Pointers that offer a full range of technical information in many of our overhaul kits.

POWER THAT MOVES

WHO WE ARE

Raybestos Powertrain has manufactured quality, American-made parts for the automotive industry since 1902. Today, you'll find our premium parts in transmissions across the country and around the globe. We believe automatic transmission professionals deserve original thinking. That's why OEM standards drive the premium quality of each Raybestos Powertrain friction plate. It's our OE dedication that powers our aftermarket innovations.

PREMIUM TRANSMISSION PRODUCT LINES

- Friction & Steel Clutch Plates & Modules
- Rigid and Flex Friction Bands
- Filters & Filter Kits
- Speed Sensors & Solenoids
- Sprags and Roller Clutches
- Torque Converter Components

FRICITION MATERIAL GUIDE

	Improved durability for passenger vehicles.
	Improved performance for Honda vehicles.
	Street-strip, tuner, and off-road vehicles.
	High-stress, HD, commercial, street-strip racing.
	High energy absorption, low wear for racing.

VERTICALLY INTEGRATED SUPPLY CHAIN - MADE IN USA

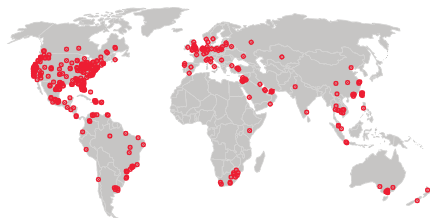

Raybestos Powertrain is a vertically integrated automatic transmission friction clutch plate manufacturer. We make our own friction material paper and our own adhesives in our Crawfordsville, Indiana USA manufacturing plant. The friction paper is then blanked and processed before being bonded to a steel core with our own internally manufactured adhesive materials for aftermarket, OE, and Off-Highway applications.

UNIQUE SUPPLY CHAIN ADVANTAGES

- Friction Paper Mill - Crawfordsville, IN Plant
- R&D Testing Paper Mill - Crawfordsville, IN R&D Tech Center
- Adhesive Production - Crawfordsville, IN Plant
- Automatic Transmission Filter Production - Sullivan, IN Plant

WHERE TO BUY

Our transmission parts distributors are found across the country & around the world. Visit RaybestosPowertrain.com/where-to-buy to find a distributor near you.

Your #1 Trusted Source

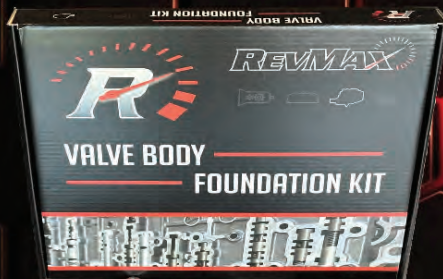

RevMax 68RFE ZeroFlex Billet Channel Plate V2.0

- 6061 billet aluminum construction
- Deep critical worm tracks
- .0003 flatness across the entire plate. The only truly flat billet channel plate!
- Micro polished worm track surface. There are no visible or perceptible machining marks or stepovers. This ensures no chance of any leaking due to machining marks.
- Large Radius machining on the filter cutout increases rigidity yet allows the use of a stock filter assembly.
- Angle milled step downs increase rigidity in problematic flexing areas.
- Ability to run up to 325psi of line pressure without any warpage! (transmission tuning, TCM upgrade or pressure box is needed) No pump modifications required for up to 250psi!
- Proprietary worm track layout
- Shortened Shift Times for crisp, clean shifts

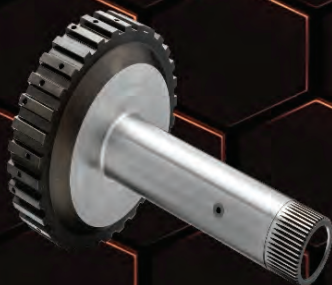

68RFE 700 Series Pro Input Drum D.I.Y.

- Drop In Kit! Does NOT require any machining, simply build it and go!
- Eliminates problematic 3-4 shift squawk found in other aftermarket drums using larger than factory OD apply piston area. Fixes other 3-4, 4-3, 5-3 shifting complaints
- 16 Single Sided Frictions in OD, 29% Increase Over Factory
- 10 Single Sided Frictions in UD, 18% Increase Over Factory
- Billet OD/Reverse Pressure Plate
- Billet UD/OD Pressure Plate
- Billet 6061 CNC Construction
- Mil-Spec Hard Coat Anodized Coating, Prevents Clutch Plates From Damaging the Drum Surface

RevMax Valve Body Foundation Kit D.I.Y.

- Bonded separator plate
- Tower seal grommets
- RevMax ZeroFlex billet channel plate V2.0
- Heavy duty ZeroFlex accumulator plate * patent pending*
- Hex bolts and washer kit for accumulator plate
- Billet accumulators (X5)
- Accumulator seal kit (X15)
- Low / Reverse switch valve kit
- Bonded AUX separator plate 2019+

68RFE 300M One Piece FORGED Billet Overdrive Clutch Hub and Shaft Assembly * Patent Pending*

- Ability to run full thickness pressure plates while increasing clutch capacity by 28%
- Up to 50% more clutch capacity when using a .100" machined OD/Rev pressure plate.
- Longer clutch hub length allowing the installation of up to 20 single sided or 8 double sided frictions.
- One piece design that eliminates the weld from failing
- 4340M/300M billet hot forged material that is nearly 100% stronger than the OEM shaft
- Precision ground bushing surfaces
- Shot Peened lubrication holes to stop any stress cracks from forming
- Can be installed in a 100% OEM stock transmission without ANY modifications or into a transmission that incorporates any current aftermarket drum assembly.

sonnax®

www.sonnax.com

After more than 40 years in business, the Sonnax name has become synonymous with quality parts, outstanding service and technical expertise that are second to none. As a leading supplier to the automotive aftermarket, Sonnax exports to more than 70 countries and supports emerging markets worldwide. Sonnax is an ISO 9001:2015 registered company.

FREE Tech Resources

Check out hundreds of articles, diagnostic guides, valve body diagrams, build charts, videos and more at www.sonnax.com.

Friendly Product Support

Our team of seasoned automotive professionals and product specialists is here to help you get the most out of Sonnax products. Call or email to get in touch!

Stay in the Loop on New Products & Tech

Visit www.sonnax.com to sign up for enews or join other Sonnax fans on social media sharing great stories and photos!

Transmission Components & Remanufactured Valve Bodies

Choose the repair that's right for your rebuild. Select from thousands of individual parts and shift repair kits or hundreds of premium remanufactured valve bodies.

Torque Converter Components

From popular OE replacement parts to unique performance kits and fixes, Sonnax is the world's leading, full product line supplier of aftermarket torque converter components.

Heavy-Duty & Performance Transmission/Converter Upgrades

Build with confidence! Sonnax upgrades take on the toughest challenges faced by workhorse vehicles and high-horsepower street/strip cars and trucks.

Performance Driveline Components

From steel slip yokes and pinion yokes to aluminum yokes and tubing, Sonnax parts deliver enhanced strength and durability for aluminum and carbon fiber driveshaft builds.

ROSTRA®

Powertrain Controls

www.rostrapowertrain.com

With more than 30 years of experience in the automatic transmission parts arena, Rostra Powertrain Controls is recognized globally for exceptional quality and customer service. Rostra holds ISO-9001:2015 and IATF-16949:2016 quality certifications.

COMPANY PROFILE

OSI Environmental is a full-service environmental services company that prides itself on finding, utilizing and promoting products and services that reduce waste, save money and are safer for your employees to work with. In 2002 OSI rolled out a parts washer service program with those ideas in mind, in 2011 we purchased the patents and manufacturing rights to the StillClean portable solvent recycling systems. In 2020 OSI added low and no VOC aqueous chemicals and cleaning equipment with the acquisition of the Hydra, AQC and JackHammer product lines.

StillClean Portable Solvent Distillation Systems

Makes Any Solvent Washer A Recycling System

- The most economical recycler on the market.
- Clean solvent all day every day.
- Service multiple washers with one StillClean.
- Eliminate hazardous waste and permit fees.
- Portable - Only 29 lbs. sits on a bench, cart or drum.
- Rated for continuous duty to keep your solvent good as new every day of the week.

Hydra Series Washers, AQC and JackHammer Line of Cleaners

Water Based Parts Washers and Chemicals to Meet the Toughest Challenges

fitzall.com

Company Profile

Fitzall is a third-generation, family-owned and operated business founded by Roger Swenson, Sr. The company grew from SwenCo Transmission, a small mom-and-pop transmission shop located in St. Louis, Missouri in the 1960s, to TeckPak-Fitzall in 1981, after many years of successfully rebuilding transmissions for its customers. Fitzall still manufactures their parts where they began more than

60 years ago in Southeast Missouri. In addition, the company takes great pride in the fact that all its parts and products are designed and produced in the United States. **Started by transmission builders, for transmission builders.**

What's New

2024 is a truly New Year for Fitzall, as we will be rolling out our new brand identity (see logo above) and also introducing a new comprehensive website redesign.

The new Fitzall website offers a more robust parts and products presentation, easier navigation and better search features with a simpler menu. Customers can also look forward to a new loyalty program, giving the best service with updates on products when they are released.

Fitzall is also investing in our industry's future by supporting the continued growth in education of the next generation of builders. We are interested in any technical colleges seeking assistance for their transmission-specific schooling so transmission shops can continue to have properly informed and trained employees. We are committed to investing in student outreach that will preserve the transmission industry for years to come.

Products

We build hard parts solutions, classic electronics and tools for most domestic vehicles. Our line of cables and tubes helped supply our customers' growing needs through the difficulties of the pandemic and continue to do so today. We focus on making transmission solutions faster, easier and more reliably fixed, shortening your lift time, saving your customer's money and bringing more business at higher profits to your door.

Flusher Block Adapters

6L80/6L90 Early & Late
6F35

Dodge Shift Lever Seal & Spacer

Shifter Grommet Kit

For all domestic
vehicles coming end of Q2

Universal Dipstick & Tube 4L60E

4L80E (end of Q1)
6L80 (end of Q3)

Research & Development

We are increasing our efforts to be more relevant in the coming year with the newer 6, 8 and 10 speed units. We strive to fix the nagging mechanical issues you've experienced with the newer units. We have invested in newer equipment to improve our development time and are listening to the needs of transmission builders to solve the problems brought forward. We also welcome ideas and concerns from you, our builders, on fixes that need to be developed.

Customer Support

Who better to talk to than the manufacturer for understanding how to use our products. Fitzall uses its small family team to answer your questions with answers, direct from the engineer.

We are always looking for product feedback and how we can make improvements to continue making the highest quality parts.
