## SUPERIOR'S 6F35 / 6T40 SuperTuff® Solution

**UPDATE!** Now fits FORD 8F35 types and GM/Imports 9T45/50!

Part# K0100

The K0100 Kit includes: Our high-quality, 3-piece tool set designed for quick removal of the worn bushing and an indexed re-installation of the SuperTuff® bushing. The two-sided driver head also serves as the driver to install the included seal made of better-than-OEM materials.

Kit also includes (5) axle seals and (5) original K099 SuperTuff® Teflon® bushings for a total of five (5) fixes.

Refills for the K0100 are available, ask for Part # K099 for GM/Import units or the NEW 2014-up thick wall bushing Part # K0199 for Ford units. These can be used during overhaul as an upgraded seal & bushing fix.

## Pro-Series Transmission / Power Steering Repair Assortment

Smart Splice™ Pro Series includes 16 unique repair options, making it ideal for any repair shop. With Smart Splice connectors for straight, 45°, and 90° line-to-line repairs along with Smart Splice connectors for line-to-hose repairs, technicians have everything needed to quickly and effectively repair or build almost all transmission lines and power steering return lines. Smart Splice™ line repair products are superior to traditional compression fittings thanks to AirSept's proprietary sealing technology that contributes to long service life. A unique HNBR seal sleeve dramatically expands the sealing surface and a high-tech anti-vibration tension ring ensures repair durability in heavy vibration automotive applications.

## Gasket Wizard - Bonded Separator Plate Gasket Remover

### Original Concentrated Powder Mix

TransTec® Gasket Wizard is specifically formulated to break down old adhesives, allowing the gasket to be completely released from the separator plate without doing any harm to the surface or finish in as quick as 15-20 minutes! Instead of spending hours scraping the gasket paper off, only to scratch and gouge the plate, simply soak the separator plate in the solution and watch the paper peel right off!

## Hydra-Test Deluxe Transmission Dyno

Hydra-Test is now offering the next generation of automotive transmission dynamometers. Utilizing a quiet 40 HP electric drive, eddy current load units, and a modular design, our dynos can be tailored to meet your testing needs. Axiline style master plates, flex plates, and output adapters are a direct fit. With a focus on applications and support of the current 6, 8, and 10 speed units, Hydra-Test is making sure we can support the units that you need to test. Paired with our Deluxe Dyno Control Console that uses our HTC-S data acquisition and solenoid controller, this is the ultimate in transmission testing.

## Stator Sleeve Tool Kit

The Stator Sleeve Tool Kit is an innovative NEW tool kit that allows you to remove and replace worn-out GM stator sleeves, allowing you to rebuild the stator support instead of purchasing a costly aftermarket replacement.

Each kit includes a removal tool and an instruction sheet. Each kit also comes with our new replacement sleeves, one of each variation.

Additional sleeves are available in bulk after the purchase of a kit.

The TransTec Stator Sleeve Tool Kit is another custom solution to help you Rebuild It Right!

## New and Improved LUBEGARD Assemblee Goo with LXE-XP™ Technology

LUBEGARD® Assemblee Goo™ Green (P/N 19250) is now formulated with LXE-XP™, a new concentrated anti-wear molecule developed by International Lubricants, Inc. (ILI).

The new and improved Assemblee Goo with LXE-XP is the only kind of assembly gel that is formulated with anti-wear and provides protections to metal surfaces during initial startup.

Blue Assemblee Goo (P/N 19260) is now also formulated with LXE-XP™. Assemblee Goo helps facilitate the assembly process by holding components such as needle bearings and hydraulic seals in place.

For more information, go to [www.Lubegard.com](http://www.Lubegard.com).

## GM 8-Speed TCC Shudder Solution

LUBEGARD PLATINUM® ATF Protectant (P/N 63010) with proprietary anti-wear additive and friction modifiers eliminates TCC shudder and reduces slippage in GM 8L45 & 8L90 transmissions.

LUBEGARD PLATINUM® can be added to the existing ATF, or at the time of fluid change. Use two 10-oz bottles per unit for GM 8L45 & 8L90 transmissions and allow up to 200 driving miles to see the full results.

A third-party test shows that LUBEGARD PLATINUM® tightens shifting cycle by 50% and significantly improves anti-wear protection of new and used fluid. For more information, visit [www.Lubegard.com](http://www.Lubegard.com).

## Bench Buddy® and Accumulator Buddy®

The secret to the patented Bench Buddy® and the patented Accumulator Buddy® bore brush sets are the bristles. The super fine abrasive is locked into every nylon bristle using a proprietary extrusion process that utilizes high heat and pressure to blend and form the bristles.

Ease of use, simply insert the twisted stainless steel wire shaft into a drill and pull the trigger to quickly and efficiently clear, clean, smooth or polish blind bores, holes, gaps, tubes and virtually any hard to reach bore / surface in seconds – with virtually no change in specs. Leaving a deglazed, cleaned and polished concentric surface.

Now you can SEE why the Bench Buddy Line of bore cleaning brushes really are "THE MECHANICS BEST FRIEND"™

## 6L80-E Pump Alignment Clamp

6L80-E pump alignment clamp made in the USA from 6061 T-6 Aluminum. The clamp is precision-machined to mate with the pump body (bell-housing) and stator support for proper alignment of both parts during reassembly. The ATSG service manual says pump alignment on this unit is critical. Clamp comes in a cardboard storage box.

## EVO300 Sealing Compound

Get the sealant every shop is talking about!

The most popular TransTec® overhaul kits now include EVO300 sealing compound. This sealant services units that originally used a sealer from the factory. EVO300 sealing compound has excellent resistance to gasoline, diesel fuels, oils, lubricants, fresh and saltwater, sunlight & ozone. It has a temperature range up to 572°F. All popular applications that used a sealer from the OEM will contain the EVO 300 along with an applicator tip and dispensing tool. Find EVO300 Sealing Compound in all the popular TransTec® overhaul kits. We're stronger together.
