Shift Cable Repair Kits

Replace the Bushing Not the Cable

Bushing Fix
1820 W Memorial
Lakeland, FL 33815
Phone: (863)644-1216
www.bushingfix.com[®]

Replacement Bushings for
* automatic transmissions
* many manual transmissions
* transfer cases

We Offer Replacement Bushings

At BushingFix.com[®] we produce custom molded replacement bushings for shift cables, many transfer cases, automatic transmissions as well as MANY manual or standard transmissions.

We have replacement shift cable bushings for over 90% of automatic transmissions! Over the past year we have expanded from 17 replacement bushing kits to 24 replacement kits – plus we offer an Assorted Shop Set to provide shops with an assortment of replacement bushings to cover all your needs.

Our Motto – 'Replace the bushing – NOT the cable!' Our full line up of replacement bushings are designed with the shop and technician in mind – saving you time, making you money, and satisfying your customer! Our patented products provide a Lifetime Warranty as well!

Company Profile

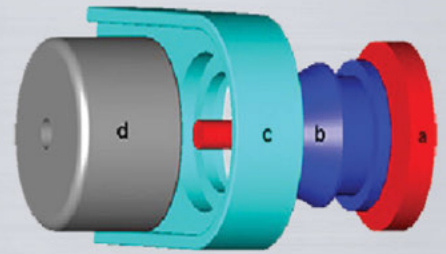

Why replace the cable when you can replace the BUSHING? BushingFix.com[®] is a division of Ascension Engineering specializing in the design and manufacturing of automotive replacement bushings. Our engineers develop superior replacement parts and installation systems for common part failures that the OEM has no specific part available. Our aim is to develop and manufacture patented replacement parts that save not only the client money but the cost of labor. We are also a proud member of the Automatic Transmission Rebuilders Association.

Assorted Shop Set – Great Value

Perfect set for shops, mechanics, and industry professionals! The set includes 23 kits from our Standard Bushing Collection. The parts are individually packaged inside the box complete with instructions. We have also included a 16 page full-color catalogue containing vehicle fitment and the list of our Specialty Bushing Collection. The Boxed Set will cover 90% of the automatic vehicles produced from the '80s to present day. Our replacement bushings turn a labor intense repair into a time saving pure profit fix that will save both you and the consumer money.

Customer Support

Our quality products are backed with quality customer support. Our on site, knowledgeable tech support, and dedicated account reps are available to answer any questions. Visit our website at www.bushingfix.com for Installation Videos, updated fitment data on over 5,000 makes and models. Plus, we continue to add products!

IF YOU SEE AN OE FIX™ SOLUTION YOU KNOW IT'S BETTER THAN OEM.

Dorman gives repair professionals and vehicle owners greater freedom to fix motor vehicles. For over 100 years, we have been driving new solutions for the aftermarket, releasing tens of thousands of replacement products engineered to save time and money, and increase convenience and reliability. Founded and headquartered in the United States, we are a pioneering global organization offering an always evolving catalog of parts, covering products for cars, trucks and specialty vehicles, from chassis to body, from underhood to undercarriage and from hardware to complex electronics.

When you see a Dorman product marked OE FIX™, that means it's designed to offer a better repair solution than the OEM. Dorman is dedicated to these innovative products, which are in turn dedicated to the hardworking men and women of the auto repair industry.

Flo-Dynamics
 3300 Reedy Drive
 Elkhart, IN 46515
 (800) 303-5874
www.flodynamics.com

Company Profile

Flo-Dynamics, a division of Norco Industries was formed in 1992. We started out engineering transmission fluid exchangers for several of the OE's. Over the years, we expanded both the markets and product offering. In January of 2018, we acquired the well know and respected company, G-TEC, manufacturer of transmission flush machines. G-TEC has been providing quality equipment since 1991.

The People

Frank Casale, VP
 Steve Anderson, Sales Manager
 Marty Gehrke, Customer Service Manager
 Scott Defebaugh, Tech/Engineer Manager

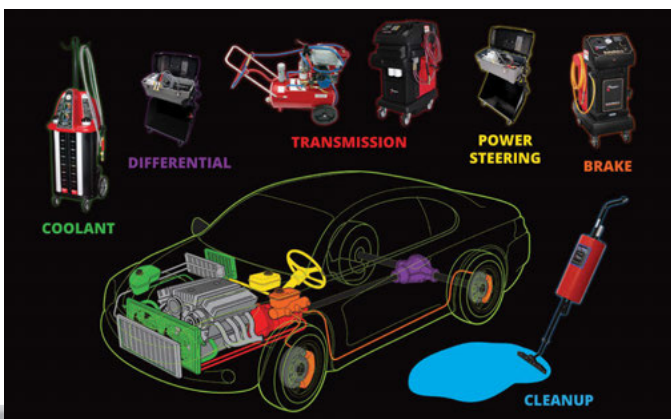

What's New

The Flo-Dynamics High Flow Hydraulic System Flushers will flush and clean transmission coolers and lines or any hydraulic system of contamination, sludge, varnish deposits, and particles from a failed transmission. The TTCF-9A variable flow unit, with an adjustable flow rate from 1-8 GPM, is specially developed for every type of vehicle, from automobiles to heavy duty transmission cooling systems requiring higher flow rates. The TTCF-9B base unit has a flow rate of 8 GPM to clean heavy duty transmission cooling systems requiring high flow rates.

Products

Flo-Dynamics is a manufacturer of Fluid maintenance service equipment. From fluid maintenance equipment for Transmission, Power Steering, Coolant, Brake, Differential, AC, and DEF. We also manufacturer Transmission flush machines (G-TEC) along with innovative equipment to clean up spills (Air/Vac).

Research and Development

Flo-Dynamics, a leader in the automotive industry.
 We pride ourselves for engineering and designing equipment from the ground up. We produce equipment that the techs ask for, not what someone thinks they need. This comes from spending time in the shops with technicians who use our equipment. Flo-Dynamics was the first to the market with transmission fluid exchangers. Flo-Dynamics produces the fastest transmission dipstick service machine in the industry. Units include patented features like power lost memory, pump/manifold design, electronic measuring systems, just to name a few. We were the first with coolant machine that combines both vac/fill and full flush service. First with smart transmission machine. Patented remote pendant for easier power steering service. Brake machine that can service gas, hybrids and electrical vehicles. More OE approvals than any other manufacture in our category of fluid service equipment. Leading the way for 26 years.

Customer Support

We believe that support after the sale is just as important as before the sale. We have internal and local sales teams, along with internal tech departments and nationwide service center techs to provide support of our equipment. for more information, including operation videos, quick start guides, adapter charts, manuals, parts list, and more, visit our website at www.flodynamics.com.

Guangzhou Transnation Auto Technology Co, Ltd.

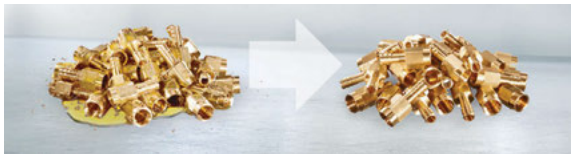

Booth# J9838

No. 3 Xianke 1st Rd Huadong Town,
Huadu District, Guannghou 510890
CHINA
<https://gztransnation.en.alibaba.com>

Our company specialized in products such as auto transmission parts for Toyota, Honda, Nissan, Mazda, Mitsubishi, Hyundai, Mercedes Benz, BMW, Volkswagen.

Our Focus: CLEAN!

As an industry leader in the global development and manufacture of industrial parts cleaning equipment, Ecoclean is globally recognized for its innovative designs, systems and services for applications involving industrial parts cleaning and degreasing, ultrasonic precision parts cleaning, high pressure water jet deburring, surface preparation and surface treatment. Our globally leading solutions help companies around the world conduct efficient and sustainable manufacturing to high quality standards.

Industries Served

Ecoclean customers come from a wide range of industries in component production and precision manufacturing - such as aerospace, medical technology, the automotive industry and its suppliers, the high-tech industry, the semiconductor industry, as well as the fasteners industry and other general manufacturing.

The Right Equipment for Every Job

Ecoclean offers an extensive product portfolio of industrial cleaning equipment for many different applications.

Whether its our ecoCwave, ecoCcompact or another design in our product portfolio, trust the cleaning experts at Ecoclean to help guide you to the best technology available in the industry.

Remanufacturing Applications

Whether solvent-based, water-based or special applications are needed, Ecoclean has the equipment and expertise for your remanufactured components.

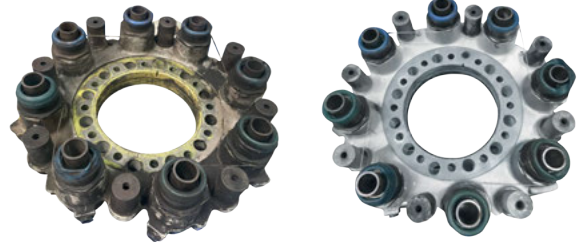

Engines, transmissions, steering components, brakes, landing gears, fuel injectors... We specialize in handling tough cleaning challenges.

POWER THAT MOVES

WHO WE ARE

Raybestos Powertrain has manufactured quality, American-made parts for the automotive industry since 1902. Today, you'll find our premium parts in transmissions across the country and around the globe. We believe automatic transmission professionals deserve original thinking. That's why OEM standards drive the premium quality of each Raybestos Powertrain friction plate. It's our OE dedication that powers our aftermarket innovations.

PREMIUM TRANSMISSION PRODUCT LINES

- Friction & Steel Clutch Plates & Modules
- Rigid and Flex Friction Bands
- Filters & Filter Kits
- Speed Sensors & Solenoids
- Sprags and Roller Clutches
- Torque Converter Components

FRICITION MATERIAL GUIDE

	Improved durability for passenger vehicles.
	Improved performance for Honda vehicles.
	Street-strip, tuner, and off-road vehicles.
	High-stress, HD, commercial, street-strip racing.
	High energy absorption, low wear for racing.

VERTICALLY INTEGRATED SUPPLY CHAIN - MADE IN USA

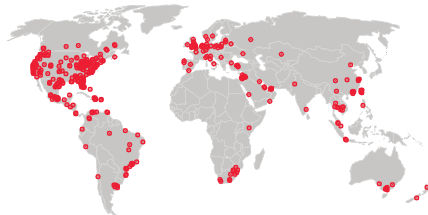

Raybestos Powertrain is a vertically integrated automatic transmission friction clutch plate manufacturer. We make our own friction material paper and our own adhesives in our Crawfordsville, Indiana USA manufacturing plant. The friction paper is then blanked and processed before being bonded to a steel core with our own internally manufactured adhesive materials for aftermarket, OE, and Off-Highway applications.

UNIQUE SUPPLY CHAIN ADVANTAGES

- Friction Paper Mill - Crawfordsville, IN Plant
- R&D Testing Paper Mill - Crawfordsville, IN R&D Tech Center
- Adhesive Production - Crawfordsville, IN Plant
- Automatic Transmission Filter Production - Sullivan, IN Plant

WHERE TO BUY

Our transmission parts distributors are found across the country & around the world. Visit RaybestosPowertrain.com/where-to-buy to find a distributor near you.

By partnering with the industry's leading transmission component manufacturers, we're able to offer a product line that features the highest quality soft parts, hard parts, converters, electronics and accessories.

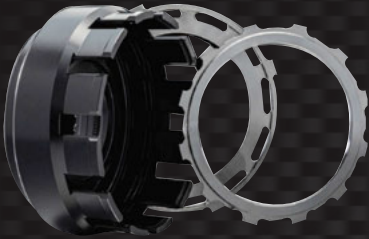

Your #1 Trusted Source

Part# 68RE-323B
for 2007.5 - 2018
68RFE-324 for 2019+

68RFE ZeroFlex Billet Channel Plate

- 6061 billet aluminum construction
- Deep critical worm tracks
- .0003 flatness across the entire plate. The only truly flat billet channel plate!
- Micro polished worm track surface. There are not visible or perceptible machining marks or stepovers. This ensures no chance of any leaking due to machining marks.
- Large radius machining on the filter cutout increases rigidity yet allows the use of a stock filter assembly.
- Angle milled step downs increase rigidity in problematic flexing areas.
- Ability to run up to 325psi of line pressure without any warpage! (Transmission tuning TCM upgrade or pressure box is needed) No pump modifications required for up to 250psi.
- Proprietary worm track layout
- Shortened shift times for crisp, clean shifts.

Part# 68RFE601PRO

68RFE 700 Series Pro Input Drum D.I.Y

- Drop In Kit! Does NOT require any machining, simply build it and go!
- Eliminates problematic 3-4 shift squawk found in other aftermarket drums using larger than factory OD apply piston area. Fixes other 3-4, 4-3, 5-3 shifting complaints.
- 16 Single Sided Frictions in OD, 29% increase over factory.
- 10 Single Sided Frictions in UD, 18% increase over factory.
- Billet OD/Reserve Pressure Plate / Billet UD/OD Pressure Plate
- Billet 6061 CNC constructed.
- Mil-Spec hard coat anodized coating prevents clutch plate from damaging the drum surface.

Part#'s :
68RFE-346 = 7 Ball: 07-10 / 68RFE-347 = 5
Ball: 11-18 / 68RFE-348 = 2019+ Blue Pack

Valve Body Foundation Kit D.I.Y

- Bonded separator plate and tower sealed grommets
- RevMax ZeroFlex billet channel plate V2.0
- Heavy duty ZeroFlex accumulator plate *Patent Pending*
- Hex bolts and washer kit for accumulator plate
- Billet accumulator (X5) and Accumulator seal kit (X15)
- Low/Reverse switch valve kit
- Bonded AUX separator plate 2019+

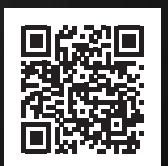

Part# 68RFE-307 KIT

68RFE No Drill Accumulator Plate Kit (Patent Pending)

- No-Drill Installation: Fits seamlessly into existing valve body without modifications reducing installation time.
- Thicker plate design with patented hook system for superior performance, reliability, and strength.
- Unmatched Durability: Crafted from premium materials for exceptional quality and longevity.

631 Anchors St NW, Fort Walton Beach, FL 32548

suncoastperformance.com

COMPANY PROFILE

Founded in 1989 in Fort Walton Beach, FL, SunCoast Performance specializes in high-quality aftermarket torque converters, transmissions, and parts. With over 45 employees and 75,000 square feet of climate-controlled space, SunCoast leads the industry by identifying and correcting OEM transmission issues using advanced technology and real-world testing. Known for American-made craftsmanship and customer satisfaction, SunCoast remains at the forefront of performance and innovation, offering training opportunities and “Research Labs” to educate customers and suppliers on the latest industry developments.

PEOPLE

Ron Wolverton – Founder and CEO

Blake Carter – President of Sales & Marketing

Chris Wolverton – General Manager

Jerry Wolverton – Director of Torque Converter Development

Montana Cherry – Director of Research & Development

Kelcie Hathcock – Director of Marketing

RESEARCH AND DEVELOPMENT

SunCoast leverages extensive real-world test data and the latest design technologies to develop solutions for common transmission failures. Their expertise has positioned them at the forefront of 8-speed and 10-speed transmission development, setting them apart from competitors in both craftsmanship and performance. SunCoast's commitment extends beyond winning for their customers and sponsored vehicles. With years of experience and an innovative research and development team, SunCoast is unmatched in the transmission and torque converter industry today.

PRODUCTS

SunCoast offers all the transmission parts you need for Dodge, Ford, and GM vehicles and is further expanding into the ZF8HP market to develop products for BMW, Audi, and more. SunCoast has everything you need for towing, hauling, racing, or anything performance.

CUSTOMER SUPPORT

At **SunCoast**, we stand behind the quality and durability of our products with an industry-leading 1-3 year unlimited mileage warranty on our transmissions, torque converters, and soft parts. Our commitment to excellence extends beyond just manufacturing – we offer exceptional customer service and technical support to ensure you get the most out of your purchase. Whether you're a daily driver or pushing your vehicle to the limit, SunCoast is here to support you with reliable products and a dedicated team ready to assist with any questions or concerns, ensuring complete customer satisfaction every step of the way. Give us a call at 800-868-0053.

WHAT'S NEW

10L1000 Zero-Deflection High Capacity E Clutch Drum with Billet Apply Piston

SunCoast's 10L1000 High Capacity “E” Clutch Drum is designed for high-performance applications, offering 29% more clutch capacity than OEM and 15% more than other aftermarket options. Its billet T6061 aluminum apply piston, with an enlarged diameter, increases surface contact and reduces deflection under heavy loads, preventing clutch cone issues. The drum replaces the factory-cast aluminum with 4140 steel dowels, enhancing durability and minimizing wear from steel tooth chatter. Equipped with Raybestos GPZ friction plates, which outperform OEM materials by 20%, the 10L1000 drum is built to withstand extreme stress and heat, providing superior reliability and longevity.

10R80 E Clutch Expanded Capacity With Drum

SunCoast, in partnership with Raybestos Powertrain, has developed an improved solution for the 10R80 platform through its new 10R80 “E” Clutch Drum. The “E” clutch, which cycles heavily through multiple gears, is prone to premature wear in high-horsepower or towing situations. SunCoast's new design increases clutch capacity by 20%, upgrading from a 5-clutch to a 6-clutch stack-up, and uses Raybestos GPZ friction material for better heat resistance and performance. The assembly is a direct drop-in replacement, requiring no machining, and comes with a new OE machined drum, piston, and backing plate for improved reliability.

WHO WE ARE

Tri Component has a 57-year reputation supplying the automatic transmission industry with innovative, reliable problem-solving products. Tri's product line has been developed through years of research and market experience. In its design work, Tri incorporates feedback from hundreds of customers throughout the world.

Tri specializes in providing parts and solutions for the torque converter rebuilding industry. Tri has extensive expertise in a variety of friction materials and their end use including premium segmented linings often exceeding OE design limitations.

Tri Component is located in a 50,000 sq foot facility in the Bronx, NY and takes pride in its dedicated staff, of which a significant number have been with Tri for over several decades.

Our mission is to provide you, the customer, with fast, knowledgeable service, exceeding your expectations at favorable pricing.

PRODUCT LINE

At Tri, we are constantly expanding our line of torque converter parts to include the latest in international applications. We also offer antique and specialized transmission parts. Our extensive product line includes:

- lockup friction linings
- clutch plates
- bearings
- accordion springs
- turbine hubs
- hubcaps
- metal clad seals
- stator caps
- o-rings
- turbine washers
- PTFE seals
- rollers
- impeller hubs
- bushings
- races

FEATURED PRODUCT

Tri Component offers a wide range of grooved lockup linings with OE groove design, as well as friction linings with cut-outs. Linings can be custom made of different friction materials such as Kevlar®, Tan, Carbon, High Carbon. Each of these grades will provide the performance that will satisfy customer's requirements and applications.
