Carol Baker, Sales  
Loring Smith, Pres.  
Krista Garrison, V.P.

BushingFix sells a growing line of shift cable repair kits to replace the failed bushing. We sell kits that fit about 90% of all transmissions and transfer cases. Our kits come with a Lifetime Warranty and take only minutes to install.

# ETE REMAN

**4949 W BROWN DEER RD  
MILWAUKEE, WI 53223  
(800) 934-9479 | BUYETE.COM**

## Who We Are & What We Do:

ETE REMAN is America's leading drivetrain remanufacturer, proudly delivering **Like New—Only Better** transmissions, engines, transfer cases, and differentials. Every unit is Remade in the USA, backed by a 3-year, unlimited mile warranty, and supported by world-class customer service. With ATSG-powered R&D and thorough testing we make sure every product performs at or above OEM specs before it ships to your door.

## What's New:

Our new 8L90/45 line is here. Precision tools, dyno-testing, and upgrades to fix common failures provide smoother, longer-lasting performance. We've also ramped up production on our best-sellers, the 6L80/90, with a reman rolling off the line faster, smarter, and more consistent than ever.

## What's Next:

We're making big moves to serve our customers faster and better. Three new distribution centers will cut delivery times in half and keep best-sellers closer to where they're needed most. On the line, new leak testing, AI-powered quality checks, and lift-assist tools are boosting reliability and protecting our team. It's all part of our ongoing commitment to building transmissions that are like new, only better.

## THE ETE DIFFERENCE

**America's #1 Remanufactured  
Transmissions**

**World's Best 3-Year, Unlimited  
Mile Warranty**

**Same-Day Shipping on  
Most In-Stock Products**

**Remanufactured in the U.S.A.**

**Award-Winning Customer Service  
And Technical Support**

Jay Shingala, President  
Neil Shingala, VP/ Sales

Capital Core Inc. is a Midwest-based distributor of major brand-new transmission parts, as well as remanufactured and premium used parts. Let us help you run your shop more efficiently, and make your business personal!

Flo-Dynamics  
3300 Reedy Drive  
Elkhart, IN 46515  
(800) 303-5874  
[www.flodynamics.com](http://www.flodynamics.com)

Flo-Dynamics, a division of Norco Industries was formed in 1992. We started out engineering transmission fluid exchangers for several of the OE's. Over the years, we have expanded both the markets and product offering. In January of 2018, we acquired the well-known and respected company, G-TEC, manufacturer of transmission flush machines. G-TEC has been providing quality equipment since 1991.

Frank Casale, VP  
Steve Anderson, Sales Manager  
Marty Gehrke, Customer Service Manager  
Scott Defebaugh, Tech/Engineer Manager

The Flo-Dynamics High Flow Hydraulic System Flushers will flush and clean transmission coolers and lines or any hydraulic system of contamination, sludge, varnish deposits, and particles from a failed transmission. The TTCF-9A variable flow unit, with an adjustable flow rate from 1-8 GPM, is specially developed for every type of vehicle, from automobiles to heavy duty transmission cooling systems requiring higher flow rates. The TTCF-9B base unit has a flow rate of 8 GPM to clean heavy duty transmission cooling systems requiring high flow rates.

Flush cycle results displayed live

Flo-Dynamics is a manufacturer of Fluid maintenance service equipment. From fluid maintenance equipment for Transmission, Power Steering, Coolant, Brake, Differential, and extraction. We also manufacture Transmission flush machines (G-TEC) along with innovative equipment to clean up spills (Air/Vac).

**Flo-Dynamics, a leader in the automotive industry.** We pride ourselves for engineering and designing equipment from the ground up. We produce equipment that the techs ask for, not what someone thinks they need. This comes from spending time in the shops with technicians who use our equipment. Flo-Dynamics was the first to the market with transmission fluid exchangers. Flo-Dynamics produces the fastest transmission dipstick service machine in the industry. Units include patented features like power lost memory, pump/manifold design, electronic measuring systems, just to name a few. We were the first with coolant machine that combines both vac/fill and full flush service. First with smart transmission machine. Patented remote pendant for easier power steering service. Brake machine that can service gas, hybrids and electrical vehicles. More OE approvals than any other manufacture in our category of fluid service equipment. Leading the way for 33 years.

We believe that support after the sale is just as important as before the sale. We have internal and local sales teams, along with internal tech departments and nationwide service center techs to provide support of our equipment. for more information, including operation videos, quick start guides, adapter charts, manuals, parts list, and more, visit our website at [www.flodynamics.com](http://www.flodynamics.com).

## Central Valve Bodies

**Transmissions, Inc.**  
REBUILDING THE PAST, TO DRIVE THE FUTURE

## **HONDA & ACURA SPECIALISTS**

H&A Transmissions, Inc. is a leading provider of quality remanufactured transmissions. We deliver nationwide to Honda & Acura dealerships, extended warranty companies, independent transmission shops and automotive repair specialists.

### **Quality Over Quantity**

Every transmission is built using OEM/OEM compatible parts. Each unit goes through multiple points of cleaning and inspection.

### **Customer Focused**

Our friendly, knowledgeable staff and tech support team are ready to assist. We have units in stock or can ship from one of our hubs.

### **Parts Offered**

Our subsidiary company Gearspeed offers an extensive line of automatic and manual parts to complete your transmission builds.

- All components must meet stringent requirements for use
- Only OE/Compatible components are utilized for any required hard part replacement
- Cases are remanufactured utilizing CNC technology
- Pressure Switches are new and tested
- Solenoids are cleaned, flushed and tested, or new
- Remanufactured Torque Converters

## COMPANY PROFILE

Founded in 1989 in Fort Walton Beach, FL, SunCoast Performance specializes in high-quality aftermarket torque converters, transmissions, and parts. With over 45 employees and 75,000 square feet of climate-controlled space, SunCoast leads the industry by identifying and correcting OEM transmission issues using advanced technology and real-world testing. Known for American-made craftsmanship and customer satisfaction, SunCoast remains at the forefront of performance and innovation, offering training opportunities and Research Labs to educate customers and suppliers on the latest industry developments.

## PEOPLE

**Ron Wolverton** – Founder and CEO

**Chris Wolverton** – Chief Financial Officer

**Jerry Wolverton** – Chief Operations Officer

**Blake Carter** – President of Sales & Marketing

## RESEARCH AND DEVELOPMENT

SunCoast leverages extensive real-world test data and the latest design technologies to develop solutions for common transmission failures. Their expertise has positioned them at the forefront of 8-speed and 10-speed transmission development, setting them apart from competitors in both craftsmanship and performance. SunCoast's commitment extends beyond winning for their customers and sponsored vehicles. With years of experience and an innovative research and development team, SunCoast is unmatched in the transmission and torque converter industry today.

## PRODUCTS

SunCoast offers all the transmission parts you need for Dodge, Ford, and GM vehicles in the gas and diesel sectors and is further expanding into the ZF8HP market to develop products for BMW, Audi, and more. SunCoast has everything you need for towing, hauling, racing, or anything performance.

## CUSTOMER SUPPORT

At SunCoast, we stand behind the quality and durability of our products with an industry-leading 1-3 year unlimited mileage warranty on our transmissions, torque converters, and soft parts. Our commitment to excellence extends beyond just manufacturing – we offer exceptional customer service and technical support to ensure you get the most out of your purchase. Whether you're a daily driver or pushing your vehicle to the limit, SunCoast is here to support you with reliable products and a dedicated team ready to assist with any questions or concerns, ensuring complete customer satisfaction every step of the way. Give us a call at 800-868-0053.

## WHAT'S NEW

### 10L1000 Zero-Deflection High Capacity E Clutch Drum with Billet Apply Piston

SunCoast's 10L1000 High Capacity "E" Clutch Drum is designed for high-performance applications, offering 29% more clutch capacity than OEM and 15% more than other aftermarket options. Its billet T6061 aluminum apply piston, with an enlarged diameter, increases surface contact and reduces deflection under heavy loads, preventing clutch cone issues. The drum replaces the factory-cast aluminum with 4140 steel dowels, enhancing durability and minimizing wear from steel tooth chatter. Equipped with Raybestos GPZ friction plates, which outperform OEM materials by 20%, the 10L1000 drum is built to withstand extreme stress and heat, providing superior reliability and longevity.

### 10R80 E Clutch Expanded Capacity With Drum

SunCoast, in partnership with Raybestos Powertrain, has developed an improved solution for the 10R80 platform through its new 10R80 "E" Clutch Drum. The "E" clutch, which cycles heavily through multiple gears, is prone to premature wear in high-horsepower or towing situations. SunCoast's new design increases clutch capacity by 20%, upgrading from a 5-clutch to a 6-clutch stack-up, and uses Raybestos GPZ friction material for better heat resistance and performance. The assembly is a direct drop-in replacement, requiring no machining, and comes with a new OE-machined drum, piston, and backing plate for improved reliability.

# Quality Transmission

*Where Quality Comes First!*

## Re-manufactured Transmissions

At Quality Transmission, **precision isn't optional — it's our guarantee.**

Our certified transmission specialists are committed to excellence, continuously attending advanced training and industry seminars to stay at the forefront of the field.

Leveraging cutting-edge diagnostic and re-manufacturing technology, we follow a “**TEST, DON'T GUESS**” philosophy — ensuring every repair is accurate, efficient, and built for long-term performance.

Every transmission rebuild meets the highest standards, using OEM or premium aftermarket components that meet — and often exceed — factory specifications.

### 100% Trusted

- All transmissions are fully updated for longevity and durability.
- Fully re-manufactured valve bodies with Sonnax updates.
- Precision of New Hampton Torque Converter.
- Dyno tested on our state of the art dynos featuring our custom software

# Your #1 Trusted Source

Part# 68RE-323B  
for 2007.5 – 2018  
68RFE-324 for 2019+

## 68RFE ZeroFlex Billet Channel Plate

- 6061 billet aluminum construction
- Deep critical worm tracks
- .0003 flatness across the entire plate. The only truly flat billet channel plate!
- Micro polished worm track surface. There are not visible or perceptible machining marks or stepovers. This ensures no chance of any leaking due to machining marks.
- Large radius machining on the filter cutout increases rigidity yet allows the use of a stock filter assembly.
- Angle milled step downs increase rigidity in problematic flexing areas.
- Ability to run up to 325psi of line pressure without any warpage! (Transmission tuning TCM upgrade or pressure box is needed) No pump modifications required for up to 250psi.
- Proprietary worm track layout
- Shortened shift times for crisp, clean shifts.

Part# 68RFE601PRO

## 68RFE 700 Series Pro Input Drum D.I.Y

- Drop In Kit! Does NOT require any machining, simply build it and go!
- Eliminates problematic 3-4 shift squawk found in other aftermarket drums using larger than factory OD apply piston area. Fixes other 3-4, 4-3, 5-3 shifting complaints.
- 16 Single Sided Frictions in OD, 29% increase over factory.
- 10 Single Sided Frictions in UD, 18% increase over factory.
- Billet OD/Reserve Pressure Plate / Billet UD/OD Pressure Plate
- Billet 6061 CNC constructed.
- Mil-Spec hard coat anodized coating prevents clutch plate from damaging the drum surface.

Part#'s :  
68RFE-346 = 7 Ball: 07-10 / 68RFE-347 = 5  
Ball: 11-18 / 68RFE-348 = 2019+ Blue Pack

## Valve Body Foundation Kit D.I.Y

- Bonded separator plate and tower sealed grommets
- RevMax ZeroFlex billet channel plate V2.0
- Heavy duty ZeroFlex accumulator plate \*Patent Pending\*
- Hex bolts and washer kit for accumulator plate
- Billet accumulator (X5) and Accumulator seal kit (X15)
- Low/Reverse switch valve kit
- Bonded AUX separator plate 2019+

Part# 68RFE-307 KIT

## 68RFE No Drill Accumulator Plate Kit *(Patent Pending)*

- No-Drill Installation: Fits seamlessly into existing valve body without modifications reducing installation time.
- Thicker plate design with patented hook system for superior performance, reliability, and strength.
- Unmatched Durability: Crafted from premium materials for exceptional quality and longevity.

# SUPERIOR

TRANSMISSION PARTS, INC.  
THE SIMPLE SOLUTION®

## Superior Transmission Parts

3770 Hartsfield Rd Tallahassee, FL 32303

NEED THE SIMPLE SOLUTION?

WWW.SUPERIOR-TRANSMISSION.COM

See what the excitement is all about!

### Company History

Over 38 years of Innovation! Superior Transmission Parts, Inc. - The Simple Solution® has designed, tested and manufactured our Family of Products with "Made in the U.S.A" pride. We market our brands as; Superior Solutions - Technology That Works® Shift Technology® Products and Shift Correction® Packages. Our Performance Line is Fairbanks Performance® and are marketed as TransAction® Kits SelectiveAction® packages, Posi-Shift® kits, PowerTow Performance® packages, and SuperServo's®.

In 2009, Superior launched TransLab Engineered® by Superior Transmission Parts, Inc. and Today our newest brand of Sure-Cool® system STL™ Thermal Bypass Valve kits are the hottest products in company history. Our Patented US11.725.891 B2 Sure~Cool® Cooler~Flow™ Bypass STL010™ creates a Lube~Loop™ thru the existing lube block circuit on GM transmissions from 2014 to current production and is a huge success worldwide.

Part #  
K0100

### The Products: R&D and Beyond

Transmission 101 for Superior is Identifying a recurring complaint, whether it is easy or complex. Fixing a known problem is paramount. It's getting a product into the hands of technicians fast who either are fixing a units complaint or wanting to upgrade for performance. Once we know what's needed to "cure or update" the units deficiencies, we then look to adding the proprietary fix to another product line kit or Simple Solution®. Each kit component whether designed to cure commonly encountered deficiencies and inconsistencies from the factory or to upgrade poor hydraulic circuit design by alleviating accelerated part wear and address premature unit failure, spotted during repairs or during the rebuild. Another hot product example is the SuperTuff® Part# K0100 for the 6F35/55 & 6T30/6T40/45 driver's side leaking axle seal and K099 / K0199 SuperTuff® D/S axle bushing fix.

### Have an Idea?

Transmission re-builders worldwide often tell us problems they are seeing on the bench, to which we've been able to identify the underlying problem that takes a unit out. Builders can bring a finished idea or prototype concerning an issue to us and if the product gets accepted by our Superior TechTeam™ we negotiate life of product royalties to the inventor, which in turn gives them incentive to help us develop the next fix for Superior. Contact us directly thru the website if you think you may have the next Simple Solution®.

Part #  
STL-6L80E

### Technical/Customer Support

Superior's TechTeam strives to keep the Superior product line user friendly. Our main recognized trademark "The Simple Solution"® says it all, by writing our instructions included in every kit and Technicians appreciate the minimal install time required to use our products. Superior's TechTeam members Dean Mason and "JB" Jim Brookshire are happy to assist. Feel free to contact them at 850-575-7155 techline anytime or to email: [jb.stp@comcast.net](mailto:jb.stp@comcast.net)
